

# You plan your dreams. We will plan your retirement.

INTRODUCING,

**BHARTI AXA LIFE**  
**SWABHIMAAN**  
RETIREMENT PLAN

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

Guaranteed payments throughout life, as long as you or your spouse<sup>#</sup> lives

Atmanirbhar: Withdrawal option in case of an emergency<sup>&</sup>

Increased<sup>@</sup> pay-out after every 5 years to help you beat inflation

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

We all make provisions for certain expenses throughout our lifetime and work hard to meet them. However, what happens if we go on to outlive our expectations and see our savings start to dry up? Are we prepared to tackle inflation or any financial emergency? Do we then lose our financial independence? How do we avoid a situation like that and ensure a regular and guaranteed income till the end of our life?

Annuities are a smart way to ensure guaranteed regular income even post retirement. You can opt to save today to build a guaranteed lifetime income stream for tomorrow. Understanding the importance and value of financial independence, we at Bharti AXA Life offer you Bharti AXA Life Swabhimaan Retirement Plan, a deferred annuity plan to ensure that you live life at your own terms – even after your retirement.

With this plan, you have the choice to plan early for your retirement and lock annuity rates at present for a guaranteed life-long payment. With its simple and easy-to-understand features, this plan is the perfect retirement plan for you.

## Key Highlights of Bharti AXA Life Swabhimaan Retirement Plan

### Guaranteed lifetime income:

Annuity once purchased is guaranteed for your entire life

### Option to receive annuity payments as long as you or your partner are alive:

Extend the same benefit of guaranteed fixed income to your spouse. In case your spouse outlives you, he/she will receive the same annuity income for as long as he/she lives.

### Multiple Annuity Pay-out Frequencies:

Option to receive annuity income monthly, quarterly, half-yearly, or yearly to suit your need.

### Decide when you want the annuity to start:

You can choose among the various deferment options available

### Wide range of annuity options:

Choose from various annuity options to suit your financial needs

Option to pay Premium as a Single Premium or spread over few years

### Option to avail liquidity in financial exigencies:

The Product offers flexibility to avail liquidity in times of need. There is an option to withdraw a part of the Surrender Value, in case of need, if all premiums are paid.

Save the date feature enables you to receive the annuity on any special date of your choice, be it your anniversary/birthday etc.

Get Tax Benefits on Premiums paid under prevailing tax laws

## Definitions:

- **Premium** shall mean (1) Single Premium paid or (2) the sum of Regular Premiums paid; Premium will vary depending on the Annuity option chosen
- **Joint Life annuity** refers to an annuity policy taken jointly on the lives of the Primary Annuitant and Secondary Annuitant. There has to be an insurable interest between the Annuitant(s)
- **Primary Life / Annuitant** is the person on whose life this policy has been taken and who is entitled to receive the annuity benefits as stated in Policy Schedule.
- **Secondary Life / Annuitant** is the person entitled to continue receiving the annuity payment, in the event of death of the Primary Life / Annuitant under Joint Life options, if applicable, and should have Insurable Interest with the Primary annuitant/life
- **Deferment Period** means the number of years from the start of the Policy after which the annuity will begin.
- **Annuity** will be payable in arrears at the end of chosen annuity payment frequency from the date of purchase of the plan. This means:
  - For yearly mode the annuity pay-out will begin after one year from the end of the deferment period.
  - For half-yearly mode the annuity pay-out will begin after 6 months from the end of the deferment period.
  - For quarterly mode the annuity pay-out will begin after 3 months from the end of the deferment period.
  - For monthly mode the annuity pay-out will begin after one month from the end of the deferment period.
- **Total Premiums Paid** means the total of all the premiums paid, excluding any extra premium, any rider premium, and taxes.

## Annuity Options in detail

### Option 1 - Life Annuity without Return of Premium:

Under this option, the Annuity is paid for the life of the Annuitant post-completion of the Deferment Period as chosen at inception.

In case of death of the Annuitant, Death Benefit as shown below shall be payable to the nominee/legal heirs and the policy shall terminate, provided the policy is in force and all due premiums till the date of death have been paid.

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

Death Benefit during Deferment period	Death Benefit post Deferment period
Death Benefit payable shall be higher of:  1. Total Premiums Paid up to date of death plus, Accrued Guaranteed Additions, if any; and  2. 105% of Total Premiums Paid up to the date of death	There is no Death Benefit payable.

## Illustration:

Mr. Agarwal is a 50 years old professional working in a private company in Delhi, who wishes to retire in the coming years. Before retiring he wants to save in a plan which will create a post-retirement income for him and his family.

He decided to pay the premium of **Rs. 5,00,000 (excluding taxes) every year for 5 years** in this plan through **Life Annuity without Return of Premium** with **Deferment of 5 years**. This is how his plan will work:

The annual annuity amount payable for the lifetime is Rs. 2,21,750

### Option 2 - Joint Life Last Survivor Annuity without Return of Premium:

Under this option, the Annuity is paid for life to the annuitant(s) post-completion of the Deferment Period as chosen at inception.

In case of death of either of the Primary/Secondary Life during the deferment period, the surviving life has to pay the remaining premiums, if any, and the policy will continue for the surviving Annuitant, who will receive the Annuity amount on expiry of the deferment period till his or her death. No death benefit is payable on the death of the surviving life. In case of non-payment of premiums, the policy will lapse or acquire Reduced paid-up status, as mentioned later in the document.

In case of death of both Primary and secondary lives during the deferment period, Death Benefit will be payable on the death of the last survivor to Nominee/legal heirs and the Policy shall terminate, provided the policy is in force and all due premiums till the date of death have been paid.

## Illustration:

Mr. Shah, a 55 years old businessman based out of Surat, is married to a 50-year-old housewife. He is approaching retirement and wants to create a secure source of income for themselves so that they can enjoy their post-retirement years without any worry. His children are grown up and settled and he wants his wife to enjoy the same lifestyle post his death too. Hence, they decide to pay the premium of **Rs. 20,00,000** (excluding taxes) as **Single Premium** in this plan through **Joint Life Last Survivor Annuity without Return of Premium** with **Deferment of 3 years**. This is how his plan will work:

In case of the unfortunate demise of Mr. Shah and Mrs. Shah post the deferment period:

The annual annuity amount payable for a lifetime is Rs. 1,62,400.  
Post his death, the annuity continues for his spouse until her death.

### Option 3 - Life Annuity with 100% Return of Premium:

Under this option, the Annuity is paid for the life of the Annuitant post-completion of the Deferment Period as chosen at inception.

In case of death of the Annuitant, the death benefit as shown below is paid to the nominee/legal heirs and the policy terminates, provided the policy is in force and all due premiums till the date of death have been paid.

Mr. Singh is a 55 years old Government Job employee based in Chandigarh, who wishes to retire in the coming years. Before retiring he wants to save in a plan which will create a post-retirement income for him in addition to his existing government pension. He wants his family to be financially secure post his demise. Hence, he decides to pay the premium of **Rs 1,00,000** (excluding taxes) for **5 years** in this plan through **Life Annuity with 100% Return of Premium** with **Deferment of 10 years**. This is how his plan will work:

In case of the unfortunate demise of Mr. Singh post the deferment period:

The annual annuity amount payable for lifetime is Rs. 55,040.  
On death, his nominee receives a lump sum pay-out of Rs. 5,00,000.

## Option 4 - Joint Life Last Survivor Annuity with Return of Premium:

After the expiry of the Deferment Period, Annuity Amount shall be paid to the Annuitant as long as one of the Annuitants is alive. The payment of the Annuity Amount will cease on later of the deaths of the two Annuitants.

Subsequently, on the death of the surviving Annuitant, Death Benefit shall be payable to the nominee/legal heirs, and the Policy Shall Terminate, provided the policy is in force and all due premiums till the date of death have been paid.

Mr. Venkat is a 50 years old working professional based in Coimbatore. He is approaching retirement and wants to create a secure source of annuity for himself and his 45 years old wife so that they can enjoy their post-retirement years with their family without any worry. He also wants to ensure a lump sum benefit post his and his spouse's demise, to pass on the legacy to his children.

They decided to pay the premium of Rs. 2,50,000 (excluding taxes) per year for 10 years in this plan through **Joint Life Last Survivor Annuity** with **Return of Premium on the death of the last survivor** with **Deferment of 10 years**. This is how his plan will look:

In case of the unfortunate demise of Mr. Venkat and Mrs. Venkat post the deferment period:

The annual annuity amount payable for lifetime is Rs. 2,13,125.

Post his death, the annuity continues for his spouse until her death. Additionally, the nominee/legal heir gets all the premiums back as a lump sum benefit of Rs. 25,00,000.

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

## Option 5 - Life Annuity with 50% Return of Premium:

Under this option, the Annuity is paid for the life of the Annuitant post-completion of the Deferment Period as chosen at inception.

In case of death of the Annuitant, Death Benefit as mentioned below will be payable to the Nominee/legal heirs and the Policy shall terminate, provided the policy is in force and all due premiums till the date of death have been paid.

Death Benefit during Deferment period	Death Benefit post Deferment period
Death Benefit payable shall be higher of:  1. Total Premiums Paid up to the date of death plus Accrued Guaranteed Additions, if any; and  2. 105% of Total Premiums Paid up to the date of death	Death Benefit payable shall be higher of  1. 50% of Total Premiums Paid plus, Accrued Guaranteed Additions, if any; less Total annuity paid out till date of intimation of death; and  2. 50% of Total Premiums Paid

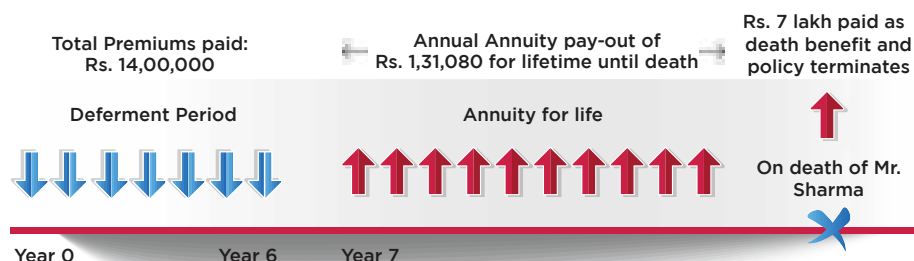

## Illustration:

Mr. Sharma is a 55 years old college professor, based out of Bhopal, who is going to retire in the coming years. Before retiring he wants to save in a plan which will create a post-retirement income for him and lump sum benefit for his family, post his demise. He also has some Fixed Deposits and a PPF as his savings. Hence, he wants a plan which not only gives him high guaranteed income but also adds to his existing savings, creating legacy for his loved ones.

He decided to pay the premium of **Rs. 2,00,000** (excluding taxes) for **7 years in this plan through Life Annuity with 50% Return of Premium with Deferment of 7 years**. This is how his plan will work:

In case of the unfortunate demise of Mr. Sharma post the deferment period:

The annual annuity amount payable for lifetime is Rs. 1,31,080.

On death, his nominee receives 50% of his premiums back as a lump sum pay-out of Rs. 7,00,000.

## Option 6 - Life Annuity with Return of Premium on Critical Illness or Permanent Disability due to accident or Death:

Under this option, the Annuity is paid for the life of the Annuitant post-completion of the Deferment Period. The Annuity shall be paid to the Annuitant up to the occurrence of any of the 10 Specified Critical Illness or Permanent Disability, due to accident (as defined in section "Definitions of Critical Illnesses and Permanent Disability") or death. This benefit is available only till the age of 80 years.

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

The list of Critical Illnesses covered includes Cancer of specified severity, Myocardial Infarction (first heart attack of specific severity), Open Chest CABG, Open Heart Replacement or Repair of Heart Valves, Coma of specified severity, Kidney failure requiring regular dialysis, Stroke resulting in permanent symptoms, Major organ/bone marrow transplant, Permanent paralysis of limbs, Motor neuron disease with permanent symptoms.

In case of diagnosis of Critical Illness or Permanent Disability due to accident, the benefit as mentioned below will be payable to the Annuitant and Policy shall terminate, provided the policy is in force and all due premiums till the date of diagnosis have been paid.

Benefit during Deferment period	Benefit post Deferment period
<p>Benefit payable shall be higher of:</p> <ol style="list-style-type: none"><li>1. Total Premiums Paid plus, Accrued Guaranteed Additions, if any; and</li><li>2. 105% of Total Premiums Paid</li></ol> <p><b>The benefit shall be payable to the Claimant and the policy terminates.</b></p>	<p><b>Before the attainment of Age 80:</b> Benefit payable shall be higher of:</p> <ol style="list-style-type: none"><li>1. ## Illustration:

Mr. Kumar is a 60 years old lawyer, based in Pune, who wishes to retire in the coming years. Before retiring he wants to ensure both his health and his lifestyle are taken care of in his retirement years, without having to manage multiple savings plans. He decides to save in a plan which will create a post-retirement income for him and his family as well as create a safety cushion in case of any health-related emergencies or in case of any permanent disability.

He decided to pay the premium of **Rs. 20,00,000** (excluding taxes) as a Single Premium in this plan through **Life Annuity** with **Return of Premium on CI or PD or Death** with **Deferment of 5 years**. This is how his plan will work:

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

In case of an unfortunate event of diagnosis of critical illness post the deferment period:

The annual annuity amount payable for lifetime is Rs. 1,96,200.

On diagnosis of any CI/PD due to an accident, he receives all his premiums back as a lump sum pay-out of Rs. 20,00,000 and the policy terminates.

## Option 7 - Life Annuity with Step-up increase after every 5 years with Return of Premium:

Under this option, the Annuity is paid for the life of the Annuitant post-completion of the the Deferment Period. The Annuity amount shall increase by 10 percent simple interest after every 5 years and this enhanced annuity amount is then paid to the Annuitant. The payment of the Annuity Amount shall cease on the death of the Annuitant.

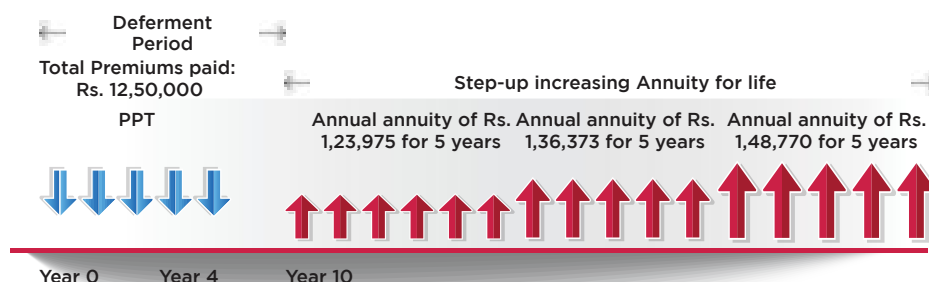

In case of death of the Annuitant, Death Benefit as described below will be payable to the Nominee/legal heirs and the Policy shall terminate, provided the policy is in force and all due premiums till the date of death have been paid.

Death Benefit during Deferment period	Death Benefit post Deferment period
Death Benefit payable shall be higher of:  1. Total Premiums Paid up to the date of death plus, Accrued Guaranteed Additions, if any; or  2. 105% of Total Premiums Paid up to the date of death	Death Benefit payable shall be higher of:  1. Total Premiums Paid; plus, Accrued Guaranteed Additions, if any; less Total annuity paid out till date of intimation of death;  2. Total Premiums Paid

## Illustration:

Mr. Kothari is a 55 years old bank employee, based in Jaipur, who wishes to retire in the coming years. Before retiring he wants to save in a plan which will create a post-retirement income for him and his family to keep abreast with the rising inflation.

He decided to pay the premium of **Rs. 2,50,000** (excluding taxes) for **5 years in this plan through Life Annuity with Return of Premium** with a Step-up increase in annuity after every **5 years** with the **Deferment of 10 years**. This is how his plan will look:

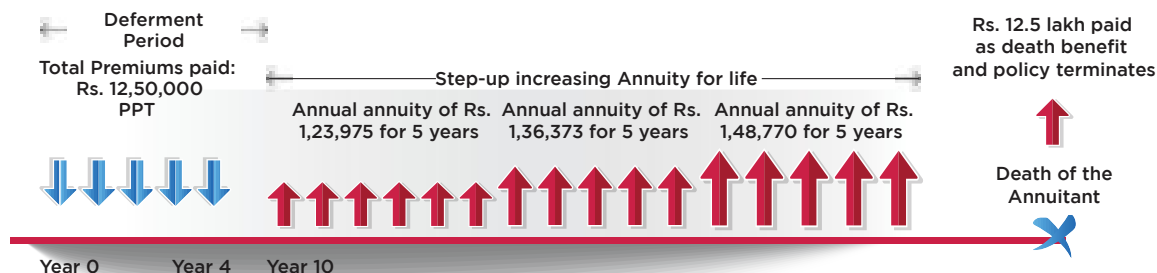

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

In case of the unfortunate demise of Mr. Kothari post the deferment period

The annual annuity amount payable to him is Rs. 1,23,975. This amount is paid for 5 years. Post this, the annuity amount steps up by 10% to Rs. 1,36,373 which gets paid out for the next 5 years. The annuity keeps increasing in this fashion after every 5 years as shown in the illustration.

On death, he receives all his premiums back as a lump sum pay-out of Rs. 12,50,000.

## Option 8 - Life Annuity with Return of Premium on attainment of age 80 years

Under this option, the Annuity is paid for the life of the Annuitant post-completion of the the Deferment Period as chosen at inception.

On the Policy Anniversary, falling after the Annuitant attains an age of 80 years, a lump sum amount equal to the Total Premiums paid shall be payable to the Annuitant. The annuity shall continue to be paid to the Annuitant till his/her death. However, in the event of the death of the Annuitant after the attained age of 80 years, there shall not be any further death benefit payable.

In case of death of the Annuitant before the attained age of 80 years, Death Benefit as described below will be payable to the Nominee/legal heirs and the Policy shall terminate, provided the policy is in force and all due premiums till the date of death have been paid.

Death Benefit during Deferment period	Death Benefit post Deferment period
<p>Death Benefit payable shall be higher of:</p> <ol style="list-style-type: none"> <li>1. Total Premiums Paid</li> </ol> <p><b>After Attainment of Age 80: No Death benefit is payable.</b></p>

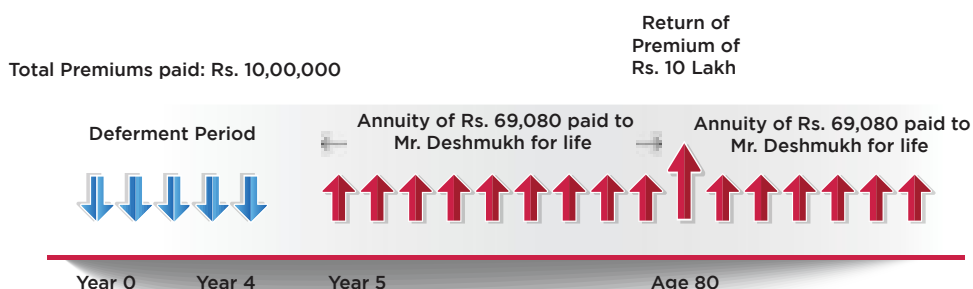

## Illustration:

Mr. Deshmukh is a 60 years old construction contractor, based in Mumbai, who wishes to retire in the coming years. Before retiring he wants to save in a plan which will create a post-retirement income for him and his family. He also wants to have access to funds, should there be any unforeseen circumstances during his old age, without compromising his annuity pay-outs.

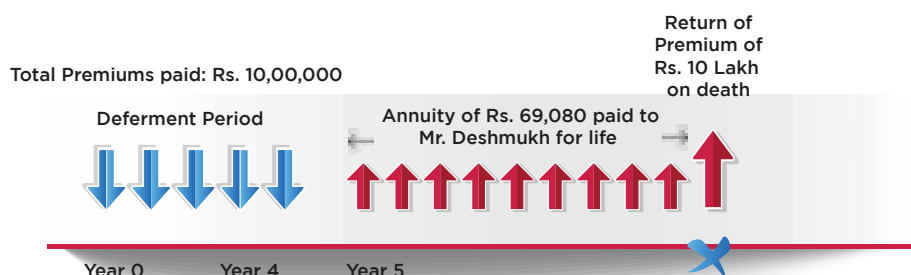

He decided to pay the premium of **Rs. 2,00,000** (excluding taxes) for **5 years in this plan through Life Annuity with Return of Premium on attainment of age 80 years** with **Deferment of 5 years**. This is how his plan will look:

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

In case of the unfortunate death of Mr. Deshmukh post the deferment period before he turns 80 years:

The annual annuity amount payable for lifetime is Rs. 69,080.

On survival till age 80, all his premiums are paid back as a lump sum benefit of Rs. 10,00,000. Further, the annuity continues to be paid until the death.

## Product Benefits

### 1) Guaranteed Additions (GA)

Guaranteed Additions is the amount accrued to the policy every month during the Deferment Period, provided all due premiums are paid. It is paid as a lump sum as part of death benefit.

GA is defined as:-

$GA = 1/12\text{th of } 6\% \text{ of Total Premiums Paid}$

### 2) Death:

Upon the death of the Life Insured, provided the policy is in force and all due premiums till the date of death have been paid, Death Benefit will be payable immediately on death.

Annuity Option	Death Benefit during Deferment period	Death Benefit post Deferment period
Option 1: Life Annuity without Return of Premium	<p>Death Benefit payable shall be higher of:</p> <ol style="list-style-type: none"> <li>1. Total Premiums Paid up to the date of death; plus, Accrued Guaranteed Additions, if any; and</li> <li>2. 105% of Total Premiums Paid up to the date of death.</li> </ol>	There is no Death Benefit payable.

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

Annuity Option	Death Benefit during Deferment period	Death Benefit post Deferment period
Option 7: Life Annuity with Step-up increase after every 5 years with Return of Premium	Death Benefit payable shall be higher of:  1. Total Premiums Paid up to the date of death plus, Accrued Guaranteed Additions, if any; or 2. 105% of Total Premiums Paid up to the date of death.	Death Benefit payable shall be higher of:  1. Total Premiums Paid plus, Accrued Guaranteed Additions, if any; less Total annuity paid out till date of intimation of death; 2. Total Premiums Paid
Option 8: Life Annuity with Return of Premium on attainment of age 80 years	Death Benefit payable shall be higher of:  1. Total Premiums Paid up to the date of death plus, Accrued Guaranteed Additions, if any; or  2. 105% of Total Premiums Paid up to the date of death.	<b>Before Attainment of Age 80:</b>  Death Benefit payable shall be higher of:  1. Total Premiums Paid plus, Accrued Guaranteed Additions, if any; less Total annuity paid out till date of intimation of death;  2. Total Premiums Paid  <b>After Attainment of Age 80: No Death benefit is payable.</b>

### 3) Critical Illness or Permanent Disability Benefit:

On diagnosis of any Critical Illness or Permanent Disability due to the accident the following benefit is payable.

Annuity Option	Benefit during Deferment period	Benefit post Deferment period
Life Annuity with Return of Premium on Critical Illness (CI) or Permanent Disability due to an accident (PD) or Death	Benefit payable shall be higher of:  1. Total Premiums Paid plus, Accrued Guaranteed Additions, if any; and 2. 105% of Total Premiums Paid  <b>The benefit shall be payable to the Claimant and the policy terminates.</b>	<b>Before attainment of Age 80:</b> Benefit payable shall be higher of:  1. Total Premiums Paid plus, Accrued Guaranteed Additions, if any; less Total annuity paid out till date of intimation of CI/PD;  2. Total Premiums Paid  <b>The benefit shall be payable to the Annuitant and the policy terminates.</b>  <b>After attainment of Age 80: Nil</b>

### 4) Survival Benefit:

Annuity is payable during the survival of the annuitant(s), as per the chosen mode of the annuity payment. In case of Option 8, if the annuitant survives to age 80, she/he will receive a lump sum amount equal to the Total Premiums Paid.

If there is any Loan outstanding under the policy, the annuity amount will be reduced by the amount of loan interest due under the policy. The loan interest will accrue as per the frequency of annuity payment under the policy and it will be due on the date of the annuity. For payment of the survival benefits, we will require a Life Certificate in the format prescribed by the company to be submitted at least 30 days before the end of each Policy Year.

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

## 5) Maturity:

There is no Maturity Benefit under the product.

## 6) Surrender:

It is recommended that you continue with your policy to avail all benefits. However, in case of surrender, the policy will acquire a surrender value. The Policy shall acquire a Surrender Value on the basis of the Premium Payment Mode as defined below:

Premium Payment Mode	Surrender Value Payable
Single Pay	At any time after the Date of Commencement of the Policy
Regular/Limited Pay	Provided at least 2 full years' Premiums have been paid

## Definitions:

### Paid-Up Factor:

$\text{Paid-Up Factor} = \text{Number of premiums paid} / \text{Number of premiums payable}$

### During Deferment Period:

The Surrender Value payable is higher than the Guaranteed Surrender Value or Special Surrender Value.

### Guaranteed Surrender Value:

$\text{Guaranteed Surrender Value} = \text{Guaranteed Surrender Value Factor} \times \text{Total Premiums Paid (excluding loading for Modal Premium, if any)}$

### Special Surrender Value:

$\text{Special Surrender Value} = (\text{F1 factor} \times \text{Special Surrender Value payable immediately at the end of the Deferment Period})$ .

SSV is calculated basis the premiums paid till date (i.e. the special surrender value payable during the deferment tt period would be pro-rated based on paid up-factor).

Further, in case of Option 1 and Option 2, the special surrender value during deferment period will be:

$\text{F1 factor} \times (\text{F2 (A) factor} - 1) \times \text{Yearly Annuity}^{**} \times \text{Paid Up Factor}$  where, F2 (A) factor will be dependent on entry age plus deferment period less 1. For joint life, the F2 (A) factor applicable will be for the minimum of the primary and secondary life.

### Post Deferment Period:

Surrender Value in post Deferment Period shall be equal to Special Surrender Value and is explained below:

Option	Annuity Option	Special Surrender Value
Option 1	Life Annuity without Return of Premium*	Nil
Option 2	Joint Life Last Survivor Annuity without Return of Premium*	Nil
Option 3	Life Annuity with 100% Return of Premium*	$\text{F2 (A) factor} \times \text{Yearly Annuity}^{**} \times \text{Paid Up Factor} + \text{F3 (A) factor} \times \text{Total Premiums Paid (excluding loading for Modal Premiums)}$
Option 4	Joint Life Last Survivor Annuity with Return of Premium*	$\text{F2 (A) factor} \times \text{Yearly Annuity}^{**} \times \text{Paid Up Factor} + \text{F3 (A) factor} \times \text{Total Premiums Paid (excluding loading for Modal Premiums)}$  For joint life, the F2 (A) & F3 (A) factors applicable will be for the minimum of the primary and secondary annuitant.

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

Option	Annuity Option	Special Surrender Value
Option 5	Life Annuity with 50% Return of Premium*	$F2 (A) \text{ factor} \times \text{Yearly Annuity}^{**} \times \text{Paid Up Factor} + F3 (A) \text{ factor} \times \text{Total Premiums Paid} \times 50\%$ (excluding loading for Modal Premiums)
Option 6	Life Annuity with Return of Premium* on Critical Illness or Permanent Disability due to accident or Death	$F2 (A) \text{ factor} \times \text{Yearly Annuity}^{**} \times \text{Paid Up Factor} + F3 (A) \text{ factor} \times \text{Total Premiums Paid}$ (excluding loading for Modal Premiums)
Option 7	Life Annuity with Step-up increase after every 5 years with Return of Premium*	$F2 (B) \text{ factor} \times \text{Yearly Annuity}^{**} \times \text{Paid Up Factor} + F3 (A) \text{ factor} \times \text{Total Premiums Paid}$ (excluding loading for Modal Premiums)
Option 8	Life Annuity with Return of Premium* on attainment of age 80 years	<p>Special Surrender Value till 80 years = <math>F2 (A) \text{ factor} \times \text{Yearly Annuity}^{**} \times \text{Paid Up Factor} + F3 (B) \text{ factor} \times \text{Total Premiums Paid}</math> (excluding loading for Modal Premiums)</p> <p>Special Surrender Value after 80 years = Nil</p>

\*\*Yearly Annuity shall be the first annual annuity payable post deferment period

The maximum Special Surrender Value shall not exceed the amount of Death Benefit payable under the chosen Option.

F1, F2 and F3 are the factors used to convert the expected future benefits to their present value. F2 and F3 factors vary by Annuity Option chosen at inception.

In case of Frequency of Annuity Payment other than annually in arrears, the Surrender Benefit shall be paid after deducting any Annuity pay-outs made during the Policy Year.

Given that the pricing interest rate reflects the prevailing market conditions, we may revise the SSV factors from time to time. Any change in the surrender value calculation method shall be applicable only after prior approval of IRDAI.

## Other Privileges

### 1) Atmanirbhar Option (Option to avail liquidity):

In case of financial exigencies during the post deferment period, for a fully paid-up policy the annuitant has a flexibility to withdraw a portion of the surrender value, as applicable at the time of the request.

The annuitant can exercise this option for a maximum of 5 times during the term of the policy, subject to the summation of a maximum of 50% of Surrender Value at the end of the Deferment Period.

Future pay-outs\* shall be reduced proportionately, i.e. by a factor of  $(1 - \text{Amount requested} / \text{Prevailing Surrender Value})$ .

Post the request, minimum annuity pay-outs shall be in accordance with IRDAI (Minimum limits for Annuities and other benefits) Regulations, 2015.

This option can be availed under the variants where Surrender value is applicable.

This option will not be extended to the policy where the policy loan facility has been availed.

\* Future pay-outs include Survival Benefit & Death Benefit

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

## Illustration:

Mr. Wasan is a 55 years old and chooses to invest Rs.1,00,000 per annum for 5 years with a deferment period of 10 years in Option 3 – Life Annuity with 100% Return of Premium.

He is eligible to receive an annuity amount of Rs. 55,040 p.a. However, he decides to withdraw an amount of Rs. 50,000 at the start of 16<sup>th</sup> year for his loan payment, after which the annuity amount reduces proportionately to Rs. 49,536 p.a. He again withdraws an amount of Rs. 50,000 at the start of 25<sup>th</sup> year for his house repair, after which the annuity amount further reduces proportionately to Rs. 44,032 p.a. (Note: Annuity pay-outs are made at the end of the year, death benefit assumed to be payable at the end of the year, and withdrawals are assumed to be made at the start of the year for this illustration.)

### Post first withdrawal of Rs. 50,000 at the start of the 16<sup>th</sup> Year:

- Annuity Payouts (Year 16 onwards) =  $\text{Rs. } 55,040 \times (1 - 50,000/5,00,000) = \text{Rs. } 49,536$
- Death Benefit (Year 16 onwards) =  $\text{Rs. } 5,00,000 \times (1 - 50,000/5,00,000) = \text{Rs. } 4,50,000$

### Post second withdrawal of Rs. 50,000 at the start of the 25<sup>th</sup> Year:

- Annuity Payouts (Year 25 onwards) =  $\text{Rs. } 49,536 \times (1 - 50,000/4,50,000) = \text{Rs. } 44,032$
- Death Benefit (Year 25 onwards) =  $\text{Rs. } 4,50,000 \times (1 - 50,000/4,50,000) = \text{Rs. } 4,00,000$

## 2) Save the Date:

The policyholders will be given this option at policy inception. At the time of buying the policy, the policyholder can choose to receive the annuity on any one date, to coincide with any special date. Please note: The date chosen should be succeeding the due date of first annuity payment and should fall within one year of this due date.

The annuity payable from the special date will be increased for the period between the due date of first annuity payment and the revised date selected, at an interest rate of 3.00% p.a. compounded monthly. The basis for increasing the annuity amount due to selection of a specified date to receive annuity will be reviewed from time to time and may be revised subject to the prior approval of the authority.

## Illustration:

Mr. Pathak is a 55 years old Government Job employee, based in Guwahati, who wishes to retire in the coming years. Before retiring he wants to save in a plan which will create a post-retirement income for him in addition to his existing government pension. He wants his family to be financially secure post his demise. Hence, he decides to pay the premium of **Rs. 5,00,000** (excluding taxes) as **Single Premium** in this plan through **Life Annuity** with **100% Return of Premium** with **Deferment of 5 years**.

The first annuity pay-out date as per the plan option chosen will be 2<sup>nd</sup> Dec 2028, and annuity amount payable will be Rs 47,300. However, he wants his annuity to start from his birthday which falls on 17<sup>th</sup> April 2029. So, he selects the 'Save the date' option and chooses the first annuity pay-out date as 17<sup>th</sup> April 2029. As per the formula explained above, his annuity amount will increase to Rs 47,831 and will be paid every year on 17<sup>th</sup> April 2029.

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

### 3) Higher Premium Incentive:

As the Premium increases, a high Premium incentive in the form of additional annuity would be paid. This addition is a percentage of the annuity rates (specified below), subject to the minimum annuity amount of Rs. 12000, per annum:

#### Single Pay

PPT/Premium Band	<= 5 lakh	> 5 lakhs and < 15 lakh	>= 15 lakh
Single Pay	0	0.50%	1.00%

#### Non-Single Pay

PPT/Premium Band	<= 1.5 lakh	> 1.5 lakhs and < 5 lakh	>= 5 lakh
5	0	1.00%	1.15%
7	0	0.85%	1.00%
10	0	0.70%	0.85%

### 4) Existing Customer Discount:

There is an existing customer discount on first year premiums:

	First Year Premium Discount
Single Premium	1%
Non-Single Premium	2%

### 5) Loan:

Loan can be availed any time after six months from the date of commencement of the policy.

- 1) Facility of Loan is available only under Annuity variants with ROP option.
- 2) The loan amount will not exceed 70% of the surrender value. Further, the maximum amount of loan that can be granted under the policy after the deferment period shall be such that the effective annual interest amount payable on the loan does not exceed 50% of the annual annuity amount payable under the policy.
- 3) Under joint life option, the loan can be availed only by the primary annuitant and on the death of the primary annuitant, it can be availed by the secondary annuitant.
- 4) The loan shall carry interest at the rate specified by the Company at the time of advancing the loan. The loan interest rate will be equal to the 10-year G-Sec\* rate prevailing on the 1st of April each year plus 3% and will remain applicable for new as well as existing loans for that financial year. The interest rate in a policy loan is not guaranteed and would be reviewed by the Company on the 1st of April every year.
- 5) The loan interest will be recovered from the annuity amount payable under the policy. The loan interest will accrue as per the frequency of annuity payment under the policy and it will be due on the date of the annuity.
- 6) The loan outstanding shall be recovered from the claim proceeds under the policy. However, the annuitant has the flexibility to repay the loan principal at any time during the currency of the annuity payments.
- 7) In case the Policy results in a claim before the repayment of the loan in full with interest, the Company shall be entitled to recover the outstanding loan and interest thereon from claims payable under the Policy.
- 8) In case the outstanding loan amount including interest exceeds the surrender value, the policy is foreclosed after giving intimation and reasonable opportunity to the policyholder to continue the policy.

For in force and fully paid-up policies, the policy cannot be foreclosed on the ground of the outstanding loan amount including interest exceeds the surrender value.

\*The source of 10-year G-sec is The Clearing Corporation of India Ltd (ccilindia.com) Negotiated Dealing System - Order Matching (NDS-OM) Platform.

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

The current rate of interest chargeable on policy loans is 10.02 % p.a. simple for FY 22-23.

Any change in the basis of the determination of interest rate for a policy loan can be done only after prior approval of the authority.

## 6) QROPS (Qualifying Recognized Overseas Pension Scheme) Policyholders:

The policyholders will have access to benefits or pay-out if this product is purchased as QROPS (Qualifying Recognized Overseas Pension Scheme), through the transfer of UK tax-relieved assets. The following terms & conditions shall apply to QROPS Policyholders:

- a) Cancellation in the Free-Look Period - If this product is purchased as QROPS through the transfer of UK tax-relieved assets, the proceeds from cancellation in the free-look period shall only be transferred back to the fund house from where the money was received, based on the rules defined by HMRC from time to time.
- b) Non-Forfeiture Benefits (Surrender benefit and paid up benefit) - If this product is purchased as QROPS through the transfer of UK-tax relieved assets, access to benefits from Policy proceeds would be restricted till the Policyholder attains 55 years of age.
- c) Overseas transfer charge - In the event of applicable tax charge arising as a result of an overseas transfer (Her Majesty Revenue & Customs HMRC - Policy paper - The overseas transfer charge - guidance, published 8th March 2017) for which the Scheme Manager i.e. Bharti AXA Life Insurance Company may become liable, an amount only to the extent of the applicable tax charge will be deducted from the Policy value and the same will be remitted to HMRC.
- d) Other terms and conditions of HMRC shall also apply as applicable from time to time.  
If this product is purchased as QROPS through the transfer of UK tax-relieved assets, the minimum entry age for payment of annuity will be governed by the rules defined by HMRC from time to time.

## What happens in case of non-payment of Premium?

### ► Grace Period

If the Premium is not paid by the due date, a grace period of 15 days will be given for the payment of the due premium for monthly payment frequency and 30 days Grace Period for due premium for quarterly, half-yearly, and annual payment frequencies. You may pay the same during the Grace Period without any penalty or late fees. The Policy continues during the Grace Period.

However, if the overdue Premium is not paid in the Grace Period, and the Annuitant dies under the Single Life Deferred Annuity for life (with death benefit), We will pay the death benefit under this Policy after deducting the due Premium (if any) from the death benefit payable.

However, if the overdue Premium is not paid in the Grace Period and the primary Annuitant dies under the Joint Life Deferred Annuity for life (with death benefit), the last surviving Annuitant will be required to continue paying the Premiums otherwise the Policy will become Lapsed Policy or Reduced Paid-Up Policy.

### ► Lapse:

If the due Premium is not paid within the Grace Period and if at least 2 (two) full years' Premiums have not been paid (except in case of Single Pay Policy), the Policy will lapse from the due date of first unpaid Premium and no benefits will be payable.

### ► Revival Period

A Policy under the Reduced Paid-up Mode / Lapsed state can be revived for full benefits within five years from the due date of the first unpaid Premium subject to the terms and conditions the Company may specify from time to time. For Revival, you will need to pay all the outstanding premiums and interest on the outstanding premiums and applicable taxes. The revival interest rate may be changed by the Company from time to time, subject to prior approval from IRDAI. The revival interest rate will be calculated on the 1st of April every year and will be derived as the average of the last six months 10-year G-Sec\* yield of the immediate last financial year plus 2%. The current revival rate of interest for FY 22-23 is 8.65% p.a. simple interest.

\*The source of 10-year G-Sec is The Clearing Corporation of India Ltd (ccilindia.com) Negotiated Dealing System - Order Matching (NDS-OM) Platform.

### ► Reduced Paid-Up:

While we recommend that you pay all your premiums, in the case of Limited or regular pay policies if you are unable to pay further premiums after the completion of two policy years, your policy gets converted into paid-up unless revived. In this case, all your benefits will be reduced but the policy remains in force.

Where, Paid-Up Factor = Number of premiums paid / Number of premiums payable

#### Reduced Paid-Up Annuity Benefit:

For a Reduced Paid-Up Mode Policy, the following Reduced Paid-Up Annuity Benefit will be payable:

Reduced Paid-Up annual Annuity = Annual Annuity amount \*Paid-Up Factor (defined above)

Guaranteed Additions, if any; do not accrue in case the premiums of the policy are not fully paid up.

Reduced Paid-Up Surrender Benefit: Surrender Value shall be higher than Guaranteed Surrender Value and Special Surrender Value

## Other Terms and Conditions

### 1) Life /Existence Certificate - Joint Life / Single Life

For payment of the survival benefits, we will require a Life Certificate in the format prescribed by the company to be submitted at least 30 days before the end of each Policy Year. The above document should be duly signed by a gazetted officer or a Registered Medical Practitioner or a scheduled bank branch manager or public notary.

If the foregoing documentation is not received at least 30 days before the end of each Policy Year, the payment of survival benefit will automatically cease from the commencement of the immediately succeeding Policy Year until the same is submitted to Us.

In certain cases, the Annuitant may be required to submit the above documents in person.

### 2) Free-Look Option:

This is an option for the policyholder to review the Policy following receipt of the Policy Document. The Policyholder has a free-look period of 15 days (30 days in case of electronic policies and policies obtained through distance mode i.e. online sales) from the date of receipt of the policy document, to review the terms and conditions of the policy and where the policyholder disagrees to any of those terms and conditions, the policyholder has the option to return the policy to the Company for the cancellation, stating the reasons for his/her objection. Then the policyholder shall be entitled to a refund of the premium, subject only to a deduction of stamp duty charges and annuity paid, if any.

For policies sourced under the Qualifying Recognized Overseas Pension Scheme (QROPS) through the transfer of UK tax-relieved assets, the proceeds from cancellation in the free-look period shall only be transferred back to the fund house from where the money was received, based on the rules defined by HMRC from time to time.

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

Please note that the Free-look option stated above can be exercised only if the Policy has been purchased from funds which are not arising from any of the pension plans under which annuitizing is compulsory. If this policy is purchased out of proceeds of a deferred pension plan of any other insurance company or from NPS proceeds, the proceeds from cancellation will be transferred back to that insurance company or to the NPS management fund respectively. All rights under this Policy shall stand extinguished immediately on cancellation of the Policy under the free-look option.

## 3) Suicide Claim Provisions

In case of death of the Annuitant or death of the last survivor in a Joint Life policy due to suicide within 12 months from the Date of Commencement of Risk under the Policy or from the date of revival of the Policy, as applicable, the Nominee or beneficiary of the Policyholder shall be entitled to at least 80% of the Total Premiums Paid till the date of death or the Surrender Value available as on the date of death, whichever is higher, provided the Policy is in force.

Under both the options any outstanding loan and interest thereon shall be recovered from the claim proceeds under the policy.

## 4) Tax

You can avail tax benefits on the premiums paid for the policy. Tax benefits on the policy may be applicable as per the prevailing provisions of the Tax Laws. GST shall be applicable on premiums as per the prevailing Tax Laws.

## 5) Assignment and Nomination

Assignment: Assignment shall be in accordance with the provisions of Section 38 of the Insurance Act 1938, as amended from time to time.

Nomination: Nomination shall be in accordance with the provisions of Section 39 of the Insurance Act 1938, as amended from time to time.

## 6) Policy Alterations and Modifications are not allowed

## 7) Advance Premium

For monthly premium payment mode policies, the Company may accept 3 months of Premium in advance only on the Date of Commencement of the Policy.

In the case of advance Premium:

1. Collection of advance Premium shall be allowed within the same financial year for the Premium due in that financial year.
2. The Premium collected in advance shall only be adjusted on the Premium due date.

## 8) Availability of Product via Online mode

The product will be available for sale through online modes.

## SECTION 41 OF INSURANCE ACT 1938 as amended from time to time

(1) "No person shall allow or offer to allow, either directly or indirectly, as an inducement to any person to take out or renew or continue an insurance in respect of any kind of risk relating to lives or property in India, any rebate of the whole or part of the commission payable or any rebate of the premium shown on the Policy, nor shall any person taking out or renewing or continuing a Policy accept any rebate, except such rebate as may be allowed in accordance with the published prospectus or tables of the insurer.

(2) Any person making default in complying with the provisions of this section shall be liable for a penalty which may extend to ten lakh rupees."

## SECTION 45 OF INSURANCE ACT 1938, as amended from time to time

Fraud/Misstatement would be dealt with in accordance with provisions of Section 45 of the Insurance Act 1938, as amended from time to time.

# Bharti AXA Life Swabhimaan Retirement Plan

A Non-Linked, Non-Participating Individual Deferred Annuity Plan

**Appendix I: Section 45 – Policy shall not be called in question on the ground of misstatement after three years  
Provisions regarding Policy not being called into question in terms of Section 45 of the Insurance Act, 1938, as amended from time to time.**

01. No Policy of Life Insurance shall be called in question on any ground whatsoever after expiry of 3 yrs from

- a. the date of issuance of the Policy or
  - b. the date of commencement of risk or
  - c. the date of revival of the Policy or
  - d. the date of rider to the the Policy
- whichever is later.

02. On the ground of fraud, a Policy of Life Insurance may be called in to question within 3 years from

- a. the date of issuance of the Policy or
  - b. the date of commencement of risk or
  - c. the date of revival of the Policy or
  - d. the date of rider to the Policy
- whichever is later.

For this, the insurer should communicate in writing to the insured or legal representative or nominee or assignees of the insured, as applicable, mentioning the ground and materials on which such a decision is based.

03. Fraud means any of the following acts committed by the insured or by his agent, with the intent to deceive the insurer or to induce the insurer to issue a life insurance Policy:

- a. The suggestion, as a fact of that which is not true and which the insured does not believe to be true;
- b. The active concealment of a fact by the insured having knowledge or belief of the fact;
- c. Any other act fitted to deceive; and
- d. Any such act or omission as the law specifically declares to be fraudulent.

04. Mere silence is not fraud unless, depending on the circumstances of the case, it is the duty of the insured or his agent keeping silence to speak or silence is in itself equivalent to speak.

05. No Insurer shall repudiate a life insurance Policy on the ground of Fraud if the Insured/beneficiary can prove that the misstatement was true to the best of his knowledge and there was no deliberate intention to suppress the fact or that such misstatement of or suppression of material fact is within the knowledge of the insurer. The onus of disproving is upon the Policyholder, if alive, or beneficiaries.

06. Life insurance Policy can be called in to question within 3 years on the ground that any statement of or suppression of a fact material to the expectancy of life of the insured was incorrectly made in the proposal or other document basis which Policy was issued or revived or rider issued. For this, the insurer should communicate in writing to the insured or legal representative or nominee or assignees of the insured, as applicable, mentioning the ground and materials on which the decision to repudiate the Policy of life insurance is based.

07. In case repudiation is on the ground of misstatement and not on fraud, the premium collected on Policy till the date of repudiation shall be paid to the insured or legal representative or nominee or assignees of insured, within a period of 90 days from the date of repudiation.

08. Fact shall not be considered material unless it has a direct bearing on the risk undertaken by the insurer. The onus is on the insurer to show that if the insurer had been aware of the said fact, no life insurance Policy would have been issued to the insured.

09. The insurer can call for proof of age at any time if he is entitled to do so and no Policy shall be deemed to be called in question merely because the terms of the Policy are adjusted on subsequent proof of age of Life Insured. So, this Section will not be applicable for questioning age or adjustment based on proof of age submitted subsequently.

[Disclaimer: This is not a comprehensive list of amendments of Insurance Laws (Amendment), 2014, and only a simplified version prepared for general information. Policy Holders are advised to refer to Original Insurance Law (Amendment), 2014.]
