## 3) Tax Benefits:

You may be eligible for tax benefits on the premiums paid as well as the benefits received as per the prevailing tax laws. The tax benefits are subject to change as per change in tax laws from time to time.

## Case Study

### How does the plan work?

Prem is 35 years old and is looking for insurance which also gives him opportunities to save for his future. He evaluated multiple financial instruments such as debt funds, Fixed Deposits, mutual funds and insurance based on their likelihood of guaranteed & safe returns, financial security as well as tax benefits. Taking into account the benefits offered by each instrument, he decided to save for his future with a life insurance policy which offers all three benefits of guaranteed returns, financial protection and tax efficiency.

### Scenario 1

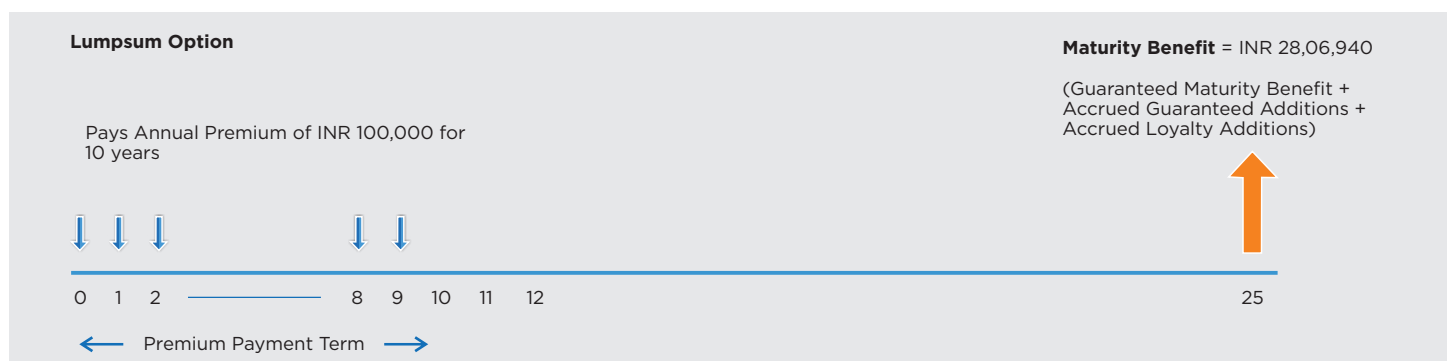

Prem chooses Bharti AXA Life Guaranteed Bachat Plan and opts for **Lumpsum Option** considering he wants a lumpsum benefit at maturity and opts for premium payment term of 10 years with a deferment period of 15 years. His Policy Term would therefore be 25 years.

He wants to pay a premium of INR 1,00,000 p.a. (exclusive of taxes, rider premiums, underwriting extra premiums, if any). The Guaranteed Maturity Benefit under his Policy is INR 10,11,510.

The below cases illustrate the benefits that Prem would receive in this Lumpsum Option.

### Case I: On survival till policy maturity

Prem pays all the due premiums and survives till the end of the Policy Term. At the end of 25th Policy Year, i.e at maturity, he receives a lumpsum Maturity Benefit of INR 28,06,940.

**BACHAT PLAN**

## Case II: In case of death during policy term:

In case of death of Prem during the policy term in the 14th year, his family would receive Death Benefit of INR 20,94,618 immediately on death.

## Scenario 2

Prem now decides to look at secondary income options to cater to his family's growing needs and decides to save in Bharti AXA Life Guaranteed Bachat Plan for a premium of INR 1,00,000 p.a. (exclusive of taxes, rider premiums, underwriting extra premiums, if any). He wants income for a period of 15 years and opts for a premium payment term of 10 years with deferment period of 5 years, the resultant policy term being 15 years.

The income period would be 15 years and the income would start from the 16th year (post maturity) till the 30th year (end of income period).

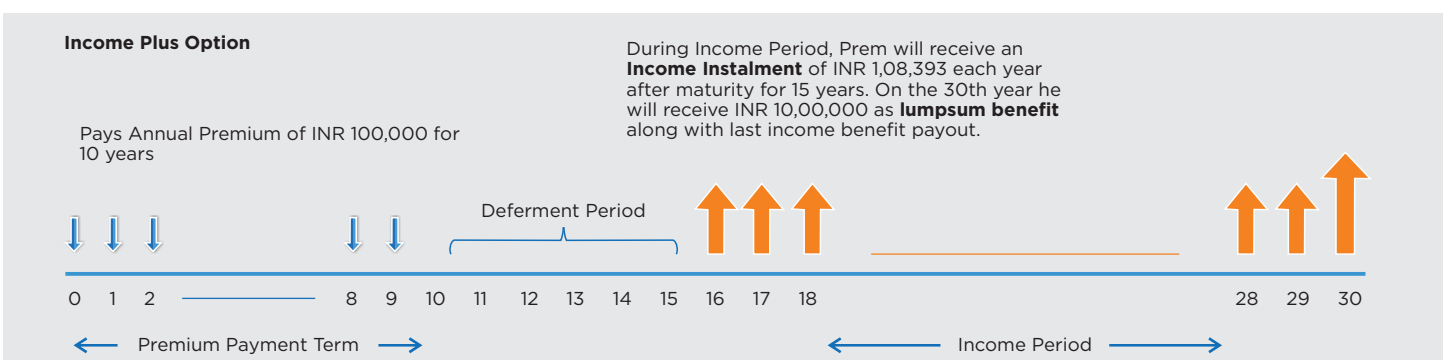

The income can be taken with a frequency of Annual, Semi-Annual, Quarterly, and Monthly. Prem opts to receive income annually.

The below cases illustrate the benefits that Prem would receive in this Plan option.

## Case I: On survival till policy maturity

Prem pays the premiums for the entire duration of the premium payment term that is 10 years.

On Survival, provided all premiums have been paid, Income would start from the 16th year till the end of 30th year (this is the income period). Additionally, at the end of the 30th year, he would receive a lumpsum benefit in the form of a Return of Premium benefit along with the last income installment.

## What premiums do I need to pay?

Premium Rates vary by age, gender, premium payment term and policy term and the plan option chosen. In case of female life, a 3 year age set back would be applied on the male rates. Further, note that the female rate for the first three entry ages for each plan option shall be set equal to the corresponding male rate at the minimum entry age.

**Premium payment mode:** You may choose monthly\*, quarterly\*, semi-annual or annual premium payment mode. The factors applicable for each mode are as given below:

Mode	Modal Factor
Annual	1 of Annualized Premium
Semi-Annual	0.51 of Annualized Premium
Quarterly*	0.26 of Annualized Premium
Monthly*	0.0867 of Annualized Premium

\*Through auto pay (ECS) only

## Advance Premium

For monthly premium payment mode policies, the Company may accept 3 months premium in advance only on the date of commencement of the policy.

In case of advance premium:

- Collection of advance premium shall be allowed within the same financial year for the premium due in that financial year
- The premium so collected in advance shall only be adjusted on the due date of the premium.

## What happens if I am unable to pay premiums?

We recommend that you pay all your premiums on the respective due dates to enjoy the policy benefits. However, we also understand that sudden changes in lifestyle like an increase in responsibility or an unexpected increase in household expenses may affect your ability to pay future premiums.

You have following flexibilities in order to ensure that your benefits under the policy continue in full or part.

**Grace Period:** Grace period is the period after the premium due date, during which you may pay your premiums without any impact on the policy benefits. During the grace period, the Policy is in-force including risk cover under the Rider. The grace period is 15 days for monthly mode and 30 days for annual/ semi-annual/ quarterly premium payment modes.

In case of the death of the Life Assured during the Grace Period, the death benefit after deducting the unpaid due premium, if any, shall be payable. The nominee will not have any rights or obligations except to receive the benefits under the policy.

## If the Policy has not acquired Surrender Value:

If Policyholder does not pay the due premiums within the Grace Period, the policy shall lapse with effect from the date of such unpaid premium ('lapse date'). You can revive the policy within the period allowed for revival of the policy. At the end of the revival period if the policy is not revived, then the policy will be terminated and no benefits will be payable.

## If the Policy has acquired Surrender Value:

After completion of first policy year provided one full year premium has been received, and further premiums have not been paid due to any reason, the Policy will automatically be converted into Paid up, on expiry of the Grace period. The Policy and all the guaranteed benefits under the Policy would be reduced and calculated as given below. You have the option to revive the policy within the period given for revival of the policy. At the end of the revival period if the policy is not revived then the policy will continue in Paid-up status and only the Paid-up benefits will be payable. The timing of the survival benefits payable under paid up policies will be same as for the premium paying policy.

This lumpsum shall be calculated as a Present Value of future Paid-up Income Instalments and ROP Benefit discounted at a rate of 8.50% p.a. The discount rate is not guaranteed. However, any change in discount rate will be subject to prior IRDAI approval.</p> <p>There will be no change in the Loyalty Income already accrued under the Policy up to the date of the Policy becoming Paid-up. After Policy acquires Paid-up status, accrual of future Loyalty Income% each year shall be calculated by applying the Paid-up LIA% to the Total Premiums Paid (excluding any loadings) till that Policy Year.</p> <p>"Paid-up LIA%" = RPU Factor * LIA%</p>

## Revival:

You have the flexibility to revive your lapsed/ paid-up policy within the revival period of five years after the due date of the first unpaid premium, subject to the terms and conditions the Company may specify from time to time.

For Revival, you will need to pay all the outstanding premiums and interest on the outstanding premiums and applicable taxes. The revival interest rate may be changed by the Company from time to time, subject to prior approval from IRDAI. The revival interest rate will be calculated on the 1st of April every year and will be derived as average of last six months 10-year G.Sec\* yield of the immediate last financial year plus 2%. The revival rate of interest for FY 25-26 is 8.87% p.a .

## Can I surrender my policy?

We would want you to pay premiums regularly till the end of your premium payment term to get maximum benefits under the policy. However, in case you are not able to pay all premiums and want to exit the policy earlier, then only surrender value will be payable to you.

The policy acquires a surrender value after completion of first policy year provided one full year premium has been received.

On surrender post the Policy acquires surrender value, you will receive the higher of:

- Guaranteed Surrender Value (GSV)
- Special Surrender Value (SSV)

The SSV shall become payable after completion of first policy year provided one full year premium has been received.

The policy acquires GSV after the payment of premium for at least two consecutive years. The surrender benefit will be payable immediately on surrender.

For more details on the Surrender Benefit, please refer the Policy document.

## Can I change the Income Frequency opted under Income Plus option?

Yes, you can change the Income Frequency (annual, semi-annual, quarterly, or monthly) selected under the Income Plus option. However, this change must be requested at least 3 months before maturity and before the Income Period begins. You can do this through any of the Company's servicing channels. Once the Income Period has started, the Income Frequency cannot be changed. Please note that applicable modal factors below will be used to calculate the equivalent income based on your chosen frequency:

Income Frequency	Modal Factor
Annual	100% of Income Installment
Semi-Annual	98% of Income Installment x 1/2
Quarterly	97% of Income Installment x 1/4
Monthly	96% of Income Installment x 1/12

### Section 45 – Policy shall not be called in question on the ground of mis-statement after three years

Provisions regarding Policy not being called into question in terms of Section 45 of the Insurance Act, 1938, as amended from time to time.

01. No Policy of Life Insurance shall be called in question **on any ground whatsoever** after expiry of 3 yrs from
  - a. the date of issuance of Policy or
  - b. the date of commencement of risk or
  - c. the date of revival of Policy or
  - d. the date of rider to the Policywhichever is later.
02. On the ground of fraud, a Policy of Life Insurance may be called in question within 3 years from
  - a. the date of issuance of Policy or
  - b. the date of commencement of risk or
  - c. the date of revival of Policy or
  - d. the date of rider to the Policywhichever is later.

For this, the insurer should communicate in writing to the insured or legal representative or nominee or assignees of insured, as applicable, mentioning the ground and materials on which such decision is based.

03. Fraud means any of the following acts committed by insured or by his agent, with the intent to deceive the insurer or to induce the insurer to issue a life insurance Policy:
  - a. The suggestion, as a fact of that which is not true and which the insured does not believe to be true;
  - b. The active concealment of a fact by the insured having knowledge or belief of the fact;
  - c. Any other act fitted to deceive; and
  - d. Any such act or omission as the law specifically declares to be fraudulent.
04. Mere silence is not fraud unless, depending on circumstances of the case, it is the duty of the insured or his agent keeping silence to speak or silence is in itself equivalent to speak.
05. No Insurer shall repudiate a life insurance Policy on the ground of Fraud, if the Insured / beneficiary can prove that the misstatement was true to the best of his knowledge and there was no deliberate intention to suppress the fact or that such mis-statement of or suppression of material fact are within the knowledge of the insurer. Onus of disproving is upon the Policyholder, if alive, or beneficiaries.
06. Life insurance Policy can be called in question within 3 years on the ground that any statement of or suppression of a fact material to expectancy of life of the insured was incorrectly made in the proposal or other document basis which Policy was issued or revived or rider issued. For this, the insurer should communicate in writing to the insured or legal representative or nominee or assignees of insured, as applicable, mentioning the ground and materials on which decision to repudiate the Policy of life insurance is based.

08. Misstatement of or suppression of the fact shall not be considered material unless it has a direct bearing on the risk undertaken by the insurer. The onus is on insurer to show that if the insurer had been aware of the said fact, no life insurance Policy would have been issued to the insured.
09. The insurer can call for proof of age at any time if he is entitled to do so and no Policy shall be deemed to be called in question merely because the terms of the Policy are adjusted on subsequent proof of age of Life Insured. So, this Section will not be applicable for questioning age or adjustment based on proof of age submitted subsequently.
