Bharti Axa Life Insurance Company Limited

L-42- Valuation Basis (Life Insurance) – March 2013

A chapter on Valuation basis covering the following minimum criteria should also be displayed on the web-site of the Insurers.

a.	How the policy data needed for valuation is accessed.		The valuation data is extracted from the policy administration system RLS for individual business and Health business(other than Easy Health). Ashima Life system is being used for maintaining data for Group business & Easy Health product. Data for Rural individual and Group Social is maintained in spreadsheets.		
			Bases are supplied through tables of Actuarial Software (Prophet). The		
b.	How the valuation bases are su	upplied to the system	valuation is performed using Prophet system.		
1)	Interest : Maximum and minimu i. Individual Business	m interest rate taken for each segment			
1.	Life- Participating policies	•	6.20% p.a. for the first five years and 5.40% p.a. thereafter
