L-42-	L-42- Valuation Basis (Life Insurance) – June 2014 A chapter on Valuation basis covering the following minimum criteria should also be displayed on the web-site of the Insurers.							
A cha								
a.	How the policy data needed for valuation is accessed.		The valuation data is extracted from the policy administration system RLS for individual business and Health business (other than Easy Health). Ashima Life system is being used for maintaining data for Group business & Easy Health product. Data for Rural individual and Group Social is maintained in spreadsheets.					
b.	How the valuation bases are supplied to the system		Bases are supplied through tables of Actuarial Software (Prophet). The valuation is performed using Prophet system.
