Celebrating 16 glorious years

IN A COMPLICATED WORLD,
WE MAKE INSURANCE
simple.

ANNUAL REPORT
2021 - 22

IN A COMPLICATED WORLD, WE MAKE INSURANCE *simple.*

Life insurance.

A necessity in today's time, considering the increasing volatility in the world. Whether it's the advent of a once-in-a-century pandemic or the risk of living too long or short.

Therefore, we, at Bharti AXA Life, have placed our customers at the fore, and have initiated a multitude of initiatives that would not only bust the myths associated with life insurance, but also make our customers' entire insurance voyage a seamless one.

The jargon and complexities associated with the insurance industry can often be overwhelming and daunting, especially for the general public. Majority of the population hardly has any understanding of how insurance works, its nitty-gritties, and the benefits and security it can offer.

At Bharti AXA Life, our main goal is to break down insurance and its multiple facets, and explain these in simple language, with topics ranging from determining how to choose the apt life insurance plan, to understanding the appropriate time for buying it, to ways of claiming and other crucial aspects.

Further, we have also embraced digitalisation to enhance customer experience, and simplify the lives of our partners, coupled with differentiated customer-oriented services and a diversified bouquet of offerings.

We are of the firm belief that: in life, a lot of things can be complicated, but your life insurance does not need to be.

Life insurance industry: Readying for take-off

— The life insurance industry in India has been steadily expanding over the last two decades.

However, if we pin that against the rapid economic growth of the country over the past several years, the growth can seemingly look quite underwhelming, and the life insurance penetration levels were far below, even compared to India's regional counterparts.

One of the major reasons behind this has been the complexities associated with the life insurance industry, coupled with the high-premium costs, especially for the ordinary working-class families.

On one hand, the reluctance of most life insurers to disassociate the complexities related to life insurance and explain the benefits clearly continued to intimidate the uninitiated, and on the other, the high premium costs continued to act as deterrents.

The result? Majority of the population continued to be under-insured and uninsured due to the lack of awareness.

However, the advent of the coronavirus pandemic was able to bring about a tectonic transition in the minds of the entire population. The pandemic caused havoc on unsurmountable levels, as millions of people lost their lives to COVID-19 across the globe.

There was no need for any advertisement; it became abundantly clear to the populace that they must be prepared for the emergence of any

unforeseen circumstance and therefore, must secure their own future and of their loved ones.

Life insurance purchases increased significantly post the pandemic, validated by the fact that life insurance penetration significantly shot up to ~3.2% in 2020, from just ~2.8% in the previous year. Nearly ~44.3% of the total premium collected by life insurers was from new policies in 2020.

Considering the favourable macro-economic factors that India is bestowed with, coupled with the increased awareness among the population post-pandemic, the life insurance industry has embarked on its journey towards attaining sustainable growth.

Navigating through this tectonic shift with a **customer-centric approach**

We truly believe that the life insurance industry is at an inflection point now, and will be on an upward trajectory from here on.

At Bharti AXA Life, our customers are the focal point of our business model. For us, we believe our success hinges more on customer-centric metrics than just financial ones.

Aware of the complexities that have daunted the general public from opting for life insurance for so many years, we have made it our goal to eliminate these, and make our customers' journey as seamless as possible, right from on-boarding to claim settlement.

We are working extensively towards ensuring that we become synonymous with life insurance and the preferred choice for customers within the country.

'Simplifying insurance' is not just a tagline. It is the central etho around which we base everything we do.

How?

- We are continuously **widening and deepening our footprint** to ensure we can stay close to our customers
- We are **diversifying our channels** to ensure our customers can opt for life insurance through their preferred medium
- We are investing in our **digital capabilities** to provide our customers with a seamless experience and enhanced internal capabilities
- We are **equipping all our customer service executives** with the required skillset and knowledge so that they are able to resolve customer grievances quickly
- We are **eliminating jargons and complexities** associated with life insurance in our communication, to become an approachable entity
- We are continuously launching **industry-first initiatives** like QR Smart Card and Grief Support Programmes, to simplify our customers' lives and be there for them during their most difficult periods
- We are launching campaigns and videos centred around **busting the myths associated with life insurance** and communicating these in simple language

We believe that our customer-centric and humane approach will draw a clear line between us and our peers, and will help us emerge as the preferred partner for life insurance among the populace.

Corporate identity

Demystifying insurance, being accessible

Bharti AXA was founded in 2006 with a simple goal of making life insurance accessible and simple for all customer segments in India.

As a result of our concerted efforts and customer-centric approach, we have been able to establish ourselves as one of India's leading life insurance companies within a short period of time.

Operating under the umbrella of the prestigious institutions, Bharti Enterprises and AXA Group, we are backed with solid financial expertise and network, which we have strategically leveraged to fortify our market position.

Our parentage

— Bharti AXA Life brings together the strong financial expertise of Bharti Enterprises, one of India's leading business groups, with interests in telecom, agricultural business, and financial services, and the Paris-headquartered AXA Group.

Bharti Enterprise

Bharti Group has several business operations in 18 countries across Asia and Africa. The Group started its telecom services business by launching mobile services in Delhi (India) in 1976. Over the past few years, Bharti has diversified into emerging business areas in the fast-expanding Indian economy. The Group offers life insurance to customers across India. Bharti also serves customers through its fresh and processed foods business. The Group has growing interests in other areas, such as mobile internet, real estate, training and capacity building, and distribution of telecom/IT products.

AXA Group

Founded in 1816 as Mutuelle de L'assurance Contre L'incendie, the Company was renamed 'AXA', later in 1985. It is a French multinational insurance firm headquartered in Paris that engages in global insurance, investment management and other financial services. AXA is present in more than 54 geographies across the globe. The Group is driven with an aim to be creative to invent new services for its customers, develop new insurance models, support new forms of mobility and adapt to healthcare developments, among others. AXA is in a position to fully embrace this golden age of insurance, by leveraging technology and digitalisation.

Evolution of our distribution mix over the years

We, at Bharti AXA Life, are building our proprietary channels (owned channels) and driving productivity-led growth over the last few years. This has resulted in higher contribution from our own channels. We have diversified our presence by venturing into newer channels like digital and bancassurance, and the contribution from these channels has also been gradually growing over the last few years. We added our first bancassurance partner Karnataka Bank in 2019, and have been able to add 1 foreign bank and 2 small finance banks in 2021 alone, a testament to our concerted focus on our growing share from the bancassurance channel.

Capitalising on India's buoyant life insurance landscape

...staying true to our customer-centric value system, we have crafted a new purpose 'in a complicated world, we make insurance simple'

Dear Shareholders,

We are delighted to share that FY22 was a fulfilling year in terms of accelerated growth, expanded reach, and digital transformation that our Company has embraced. This has been possible on the back of our focus on making the most of the opportunities in the insurance segment, coupled with our unwavering attention to widening our suite of products and services, engaging meaningfully with stakeholders and valuing our human capital.

Our new Purpose and Values

Standing tall as one of India's leading life insurance companies, we operate with a deep sense of responsibility, credibility and purpose. For us, welfare of our consumers is of paramount importance.

We are aware that the insurance industry is ridden with jargon and complexities, and that may create walls between us and the customers. Taking this into account, and staying true to our customer-centric value system, we have crafted a new purpose 'in a complicated world, we make insurance simple'. This is further augmented by our CORE values, where 'C' stands for Customer First, 'O' represents Take Ownership, R means to do the Right Thing, and E is for Excel Everyday. The new purpose and our CORE values have swiftly become the organisation's north star, and are deftly aligned with our workforce.

Driving steady growth, making great strides

We recorded our best-ever performance by achieving ₹730 crore of Weighted New Business Premium (WNBP), with a robust Y-o-Y growth of 25%. Our Assets Under Management (AUM) grew by 20% and scaled to a staggering ₹11,280 crore in FY22.

The proprietary channel performed exceedingly well and played a crucial role in defining our turbocharged growth rate.

Significant counter share was achieved in Banca Partners, and we launched 6 new products that widened choices for our customers and helped improve our margins. This is also validated externally as one of our products, i.e. Guaranteed Wealth Pro, was awarded the best product in the industry for two years in a row.

While the numbers speak volumes about our performance, recognitions and laurels further validate our organisational culture and strong ethos. In the year under review, we were certified as one of India's 'Great Places to Work.' Our Net Promoter Score, a critical business metric, improved from 23 to 32, showcasing increased customer confidence. Eminent actor Vidya Balan, who perfectly represents our CORE values, was appointed as the ambassador to amplify brand awareness, and forge deep resonance among our consumers. This move is likely to shore up our brand recall and earn trust that would be visible in our business metrics.

...Our Net Promoter Score, a critical business metric, improved from 23 to 32, showcasing increased customer confidence.'

Progressive regulations driving opportunities

IRDAI has recently permitted life insurers to launch new products without prior regulatory approval. This will act as a catalyst to fuel innovation and refine customer experience. Digital-first insurers like us can leverage this to swiftly introduce suitable products for disparate markets, thus improving insurance penetration. The Regulator's commitment to improving penetration is also visible from its advisory that proposes gross written premium (GWP) growth targets over a five-year period for life insurance firms. The Regulator is also

willing to provide regulatory support to empower firms to achieve these targets. IRDAI has also recommended setting up model-insured villages across the country to drive insurance penetration in rural areas.

Unshaken focus on improvement and transformation

We identified 'single customer view' as a strategic advantage, and to facilitate this, we implemented an organisation-wide business transformation project. Multiple mobile applications such as M-Customer, M-Sell and M-Smart, i-Win and i-Service were launched. These enabled our employees and distribution partners to augment sales, providing seamless customer experience and improving business efficiencies.

Given that WhatsApp has emerged as an effective customer touchpoint, we have strategically leveraged it by introducing new customer service flows. A distribution BOT was launched to empower our distribution partners, while strengthening collaborative initiatives. Additionally, we revamped our website with a view to offer seamless services and an enhanced consumer experience.

Being prepared for a disruptive future

India is likely to witness an exciting decade filled with audacious growth leaps and a slew of innovations. Consumer aspirations, buying choices, priorities and habits have drastically changed after the pandemic. Virtual onboarding, customised insurance products and swift claim settlement experiences are no longer unconventional. Insuretech, and Internet of Things, integrated with wearables, AI/ML enabled platforms and Big Data, are poised to alter the way life insurers work. However, life insurers will have to be prepared to tackle fraud and collusion by adopting suitable technology and refining business processes.

We are cognisant of these disruptions, and it is evident from the business transformation initiatives that we have piloted so far.

Emerging as a formidable life insurer

Our steady growth trajectory reflects our inherent strengths, and underlines our existence as a resilient organisation. We continue to focus on customer-centricity, banca partnerships, industry collaborations and strategic tie-ups that have enabled us to grow 1.5x faster than the industry in FY22. We strive to fortify our reputation as a talent magnet in the industry, thus attracting excellent human capital. Business continuity planning and intricate risk management will remain the vital pillars of our growth-oriented strategies. The transformation projects that

we have successfully executed have turned out to be our competitive advantage. By 2025, we aspire to clock an annual revenue of a billion dollars, while achieving a sustainable 20% margin, and securing 90% customer retention.

...By 2025, we aspire to clock an annual revenue of a billion dollars, while achieving a sustainable 20% margin, and securing 90% customer retention.'

With 'Customer-First' being ingrained in our culture across the organisation, we are confident of achieving our aspirations and carve out a bigger share in the country's life insurance sector.

Grievance ratio	Total No. of Policy Complaints per 10,000 policies issued.

Opportunity landscape

Room for exponential growth

The Indian life insurance industry is the world’s tenth-largest insurance market globally. Over the last two decades, it has witnessed noteworthy and consistent progress. With increasing awareness and prioritisation of health and wellness, coupled with greater buying power of the millennials and favourable government initiatives, this growth trajectory is expected to sustain and expand over the foreseeable future.

The Indian insurance market has been growing at a CAGR of ~18% over the last five years and is expected to grow at a similar rate over the next decade. This growth could be attributed to the increased participation of the private sector and an improvement in distribution capabilities, along with substantial improvements in operational efficiencies.

Growth drivers for the life insurance segment

Rising population

India is the second most populated country in the world with ~1.4 billion people, and is expected to reach ~1.5 billion by 2030. This increase in population is expected to catalyse the demand for life insurance over the long-term future.

Favourable demographics

With a median age of 29 years, India is one of the youngest countries in the world. Nearly ~55% belong to the category of ‘working’ population (20-59 years), and this is expected to increase to 56% by 2025. The increase in the working population points towards a more insurable marketplace.

Middle-class expansion

India is expected to add 141 million middle-income households and 21 million high-income households by 2030, which in turn, would drive the demand for the Indian insurance segment.

Digital wave

India is the second-largest internet user market in the world, and is projected to have 1 billion internet users by 2026. As a result of the digital wave across the country, an increasing number of customers have started to shift towards digital modes for their insurance. In response to this, insurance companies are introducing newer modes of digital products.

Opportunity landscape

Our strategy

In keeping with the developments in the life insurance industry over the last few years, we have devised a five-year well-rounded strategic roadmap that would place us favourably to capitalise on these emerging opportunities. We have already undertaken significant strides under each and will only look to improve upon these parameters over the foreseeable future. The key focus areas would be:

01

High-margin and high-potential customer segments

We will place greater emphasis on increasing our share from the high-margin and high-potential segments through our traditional channels.

02

Product-led Margin growth

We want to diversify our growth through the creation of the protection segment and by making non-par savings a dominant category with new-to-market designs, and will continue to monitor our protection mix over the foreseeable future due to the recent changes in the Reinsurance support.

03

Growing the proprietary business

We will continue to place greater emphasis on growing our proprietary business by building a more value-accretive agency and entrepreneurial model. In addition to this, we will focus on maximising the potential from our partnership with Karnataka Bank on one hand, and explore other banca partners on the other hand.

04

Strengthening our digital capabilities

We will continue to further strengthen our digital capabilities across verticals, starting from prospecting to servicing. Further, we will continue to cross-sell the existing book of business and work towards the conversion of digital leads, along with mining the Airtel customer base through digital and seller-assisted sales.

05

Improving our entrepreneurial talent

One of our main goals going forward is to ensure that we are able to build a valuable franchise through enhanced employee and customer satisfaction, by leveraging next-gen digital technology and analytics.

06

Enhancing internal efficiencies

We will focus on reducing our expenses over the foreseeable future through a robust governance framework, improved internal controls and strict cost control measures.

Customer experience

Enhancing customer experience through service innovation

At Bharti AXA Life, we believe that the only way we can become one of the most preferred insurance partners is by being there for our customers all the time, and addressing their grievances within the shortest turnaround time.

Over the years, we have undertaken a multitude of initiatives to improve customer experience. In addition to improving conventional servicing touchpoints, we have placed great emphasis on service digitisation and have launched several new initiatives, some of them being industry-first service innovations and benchmarks.

We take great pride in being one of the pioneers of offering simple-to-understand processes and easy-to-access servicing platforms to our customers. Going forward, our main goal would be to continuously improve our services and make our customers' lives as easy as possible.

QR Smart Card

Life insurance is a long-term financial product, and the details and nitty-gritties could often be extensive and complicated for the general public. We believe that easy-to-access policy details can go a long way in fostering a long-standing relationship with our customers. Our industry-first initiative of 'QR Smart Card' is an unique offering through which, all customers have anytime-anywhere access to a summary of their policy details and key features by simply scanning the QR code on their smart card. This initiative has been perceived positively by all our customers and has been a major step in our goal of simplifying insurance for our customers.

Easing the claim settlement process

We are proud to say that we have one of the highest claim settlement ratios in the industry. This has been possible due to our concerted efforts over the past several years and differentiated initiatives undertaken by us.

Claim Express: Under this, we provide our customers with the guarantee that all their claims will be settled within 24 hours of raising the request.

Grief Support Program: We are the only player in the industry that provides our customers with a dedicated Grief Support Program. Under this program, we provide our customers emotional counselling and assistance on financial planning.

Dedicated Claims Handler: We assign a dedicated personal relationship officer, who guides the claimant through the entirety of the claim process, starting from intimation to settlement.

Customer experience

WhatsApp chat-bot 'Uttara'

We have been using WhatsApp for several years to communicate important updates to customers. But we have taken it a notch higher by introducing our own chat-bot, 'Uttara'. For customers who have opted for WhatsApp services, they can avail our services 24x7 just with a tap. Uttara is fully equipped to provide 20 service options to our customers in one click. This has been a huge hit among our customers and its popularity is validated by the fact that >50% of our customer interactions were through Uttara. Through this, customers have access to a host of services, including checking policy details, downloading statements, updating personal details and locating nearest branch, among others.

DigiServe

DigiServe is our dedicated customer portal and provides our customers with real-time access to multiple information and services. We have been working on increasing the service horizon on DigiServe and enhancing the overall customer experience. The continuous updates have been well-appreciated by the customers, validated by the ever-increasing Net Promoter count and scores. We believe that our concerted focus on continuously upgrading the portal will significantly increase the visits and registrations over the foreseeable future.

Interactive voice response and call centre

For customers who may not feel comfortable seeking assistance through digital platforms, we have an interactive voice response in place, along with customer service representatives in case a customer wishes to speak to one, to get their grievances addressed promptly. We have stringent training and audit norms to ensure that our customers receive the best-in-class services from our representatives. Customers can get a call back response by giving a missed call at our number (8750960306). Customers can also avail this service by writing to us at service@bharti-axa.com or by sending an SMS "SERVICE" on 56677.

Service at our branches

We want to provide our customers with all possible avenues to avail our services, whether digitally or physically. To ensure that our customers walking in, have access to the best service experience, we have enhanced our front-end systems by providing all customer information in a single screen to assist our customer service executives, so that customers, grievances could be sorted within a short time span. In order to ensure the best experience for our customers, we conduct several system and soft skill training sessions to ensure best quality of service delivery. This is also validated by our NPS score of 83 for branch touchpoint, which is one of the highest in industry.

~7%

— Customer serviced through branch walk-ins

Customer awareness campaigns

One of our main focus areas during all our customer engagements is to increase customer awareness. We are the only insurance company to launch the campaign 'Sawal Poocho', wherein each year, we conduct a webinar inviting all customers to come and ask questions related to insurance or their own policy. We believe in selling right and maintaining transparency about every development with our customers.

Pre-issuance verification call through WhatsApp

To further streamline the customer on-boarding experience, we have launched a pre-issuance verification (PIVC) through WhatsApp, a truly unique solution. This cutting-edge and innovative digital process has simplified the customer verification process and enables our clients to authenticate their identities from anywhere and at any time.

Net Promoter Score

At Bharti AXA Life, we believe that the success or reception of our customer-centric initiatives can only be validated by our customers, and no one else.

We take our customer feedback very seriously and have undertaken a Company-wide project to record the same. A dedicated team reaches out to all customers, who have feedback to offer for improvement of any of our processes with an objective to not only resolve the issue, but also undertake process improvements, wherever applicable. This concerted focus on recording customer feedbacks resulted in a ~50% jump in our overall Net Promoter Score in FY22.

Our two top touchpoints in terms of NPS were branch visits at 60 and claims at 65. This could be significantly attributed to the long-standing relationships we share with our partners, coupled with our well-structured training sessions for our customer service agents and branch executives, and providing them access to highly integrated systems to ensure they are able to provide first-time resolution to customers reaching out to them.

Digital initiatives

Embracing digitalisation,
enhancing
experience and efficiencies

Digitalisation is the new world order. At Bharti AXA Life, we are completely aware of this reality and in line with this, we have been continuously investing in our digital capabilities over the last several years.

As a result of our concerted efforts of digitalisation, we have been able to digitise all segments of our customer value chain. Our endeavour is to provide a seamless experience to all our customers and partners, coupled with simplifying our operations and increasing internal efficiencies. Leveraging world-class digital assets, we have been able to increase our life insurance penetration significantly through partners and direct-to-consumer digital channels.

Digital initiatives

Multiple digital-first models

We have been successful in launching a digital solicitation process with a host of partners.

Three of our most popular partnership models

End-to-end journey on Bharti AXA Life platform

Lead is generated at the partner's end and then the user is re-directed to Bharti AXA's website for journey completion.

End-to-end journey on partner's platform

Journey to be built on partner's platform with Bharti AXA Life's easy-to-implement API kit.

Start journey on partner's platform and conclude on Bharti AXA Life platform

Journey starts on partner's platform for acquisition and then is re-directed to Bharti AXA's website for fulfilment process.

Smart marketing automation

We are fully aware that each customer has a unique preference, and our focus has always been on crafting personalised customer journeys for effective and meaningful engagements. Our smart marketing platform enables us to meaningfully engage with customers across policy lifecycles, which results in increased conversions due to the delivery of real-time and persuasive intercepts.

Immersive and intuitive web experience

Constantly improving customer experience is of paramount importance to us. In line with this, we decided to completely revamp our website, focusing on the millennial target audience and simplifying the entire online experience for all our customers. The new website provides a smooth and fluent interface that enables visitors to navigate and explore conveniently, irrespective of the stage of the funnel they belong, to drive better sales conversions.

While revamping our website, we placed great emphasis on ensuring that we were able to communicate in a language that was easily comprehensible by the general population. The idea was to enable customers to easily navigate through each step of their online journey. In addition to this, we are also leveraging data analytics to ensure we are able to take data-driven decisions, and build interactions that are based on the website behaviour of the users.

M-Smart mobile applications

This is part of a 3-app strategy for distribution under the digital transformation agenda of Bharti AXA Life Insurance. It is a suite of mobile and web apps for our distribution workforce that enables them to digitally perform critical business functions. These comprise pre-sales activities, customer on-boarding and servicing, coupled with complete seller lifecycle management, which includes digital recruitment, learning management and performance management.

M-Sell: M-Sell is a pre-sales mobile application for the seller to engage with prospective customers with lead management, need-based product recommendations, calculators and quotations, engagement opportunities of sharing of marketing collaterals and announcements, among others.

M-Customer: M-Customer is a mobile first, progressive web application that allows a customer to be on-boarded in less than 15 minutes by leveraging functions like E-KYC, PAN or use of existing policy details for a repeat customer for proposal form filling. The application brings smart document upload features, added with upfront underwriting decision and integrated Pre-Issuance verification, along with multiple payment options. The on-boarding journey on M-Customer is supported by a comprehensive application tracking for the sales team.

M-Life: M-Life is a mobile app that brings together digital recruitment, learning, managing performance along with Rewards & Recognition, and contests at the seller's fingertips. M-Life also brings a holistic view of the business to the seller, facilitating timely actions.

Branding

Connecting meaningfully, engaging better

One of our main priorities is to ensure we are able to develop long-standing and value-driven relationships with our customers through meaningful and simple dialogue. Through well-sought out branding initiatives, we are focused on busting myths associated with the insurance industry, developing a deep connection with our customers and showcasing our customer-centric approach.

During the year under review, we signed Vidya Balan as our brand ambassador and entered into collaboration with content-creator, Ankur Warikoo. This was followed up with an integrated marketing campaign in line with our 'Do the Smart Thing' proposition.

Our goal

To provide Indians with a smarter choice in selecting the right insurance cover.

#DotheSmartThing

We adopted the slogan 'Do the Smart Thing' in line with the current operating environment. It calls for a definitive call to action and encourages individuals within the organisation as well as our customers to do the smart thing. Through this, we plan to draw a clear distinction between us and our competitors. We will leverage this new sonic identity for all brand assets, customer caller tunes and ringtones, among others.

Communicating the benefits of life insurance

The insurance industry is ridden with complexities. To address this core industry challenge, we decided to launch a dedicated campaign with the goal to simplify insurance. During the year under review, we collaborated with well-known content creator, author and entrepreneur, Ankur Warikoo, who created six explainer videos in a campaign, titled #PlanSmartWithAnkur.

By means of the videos, Ankur explained insurance and its varied aspects in simple language, and also offered additional insights on a range of factors that buyers could take into account in their purchase journeys.

In addition to this, we also launched a video wherein our CEO, Mr. Parag Raja, busted the myths associated with life insurance and discussed the benefits of life insurance in a language, which is easily comprehensible by the general populace.

Roping in Vidya Balan as our ambassador

Vidya Balan is one of the most prominent actors in our country. To further build a connection with the audience, we roped her in as our brand ambassador and launched a brand campaign with four films featuring her. We believe that she will help us significantly to enhance our brand recall.

Vidya Balan and Bharti AXA Life – The perfect match

 Challengers in their respective eco-systems	 Self-made brands that stand true to their beliefs
 Inclusive and diverse, both are substance and merit-driven	 Both cater to a consumer base that is looking beyond the mainstream/convention

These films highlight the bouquet of products and services, which we offer, in addition to the industry-first launch of the QR Smart Card. All these films were made available across regional languages – Hinglish (master), Bengali, Odia, Kannada, Telugu, Tamil and Marathi.

People

Prioritising human capital

Our employees are at the heart of our business, and we consider them to be the biggest drivers of success. Their well-being and overall development are imperative to us. Through carefully strategised learning and development, along with well-being initiatives, we are constantly striving to ensure the holistic development of everyone associated with us.

We firmly believe that 'listening' to what our people say is one of the most efficient ways to nurture a healthy workplace culture. Effective listening leads to a better understanding of what people really need, and we gain a clearer perspective of what drives them. These insights are valuable as they help us create a more inclusive and positive space for employees. This, in turn, fosters a welcoming and considerate workspace.

COVID WeCare

During the pandemic, our biggest focus was to ensure business continuity by safeguarding our employees. The gloomy situation across the country had a severe effect on the psychological well-being of individuals. As a result, we placed great emphasis on the mental health as well as holistic development, as we cruised through these unforeseen times.

We conducted five all-employee webinars, with each having an average attendance of 4,400 and focused on topics like employee health survey updates, business updates, expectations from next quarter/year, the 'Glad. Sad. Mad survey,' and the launch of an employee feedback forum. In addition to this, we also undertook several employee engagement initiatives like cooking events and gratitude exchange programmes, among others. We also reduced the premium for parental cover by 30% Y-o-Y to help our employees during times of crises.

People

Learning and development

We ensure that our employees are equipped with the necessary skills and knowledge, and are in sync with the organisational culture. Right from the hiring process, we ensure that all the new joiners are aligned with our core values of customer-centricity, ownership, the propensity to do the right thing, and excel every day.

These are critical for us to be able to lead with a growth mindset and to accelerate the collective potential of the organisation. All our employees are put on a customised learning journey, best suited to their skillsets, background and experience. It comprises a two-day classroom induction that orients people to the Company's culture, mission and values, coupled with a periodic assessment of their key results.

Engagement and communication

CEO Townhalls: This is hosted every quarter by our CEO, Parag Raja, who interacts with the entire organisation, ensuring everyone is brought up to speed on the action plan. This session comprises sharing the Company promise, quarterly objectives, and what teams have achieved thus far. The overall company performance is explained, along with a snapshot of where we stand in the market. New initiatives and processes are also reiterated, where employees are encouraged to make the most of what the Company has to offer. Each session concludes with a Q&A, enabling our employees to directly interact with the CEO.

CEO Communication: This is rolled out in a structured manner to the leadership team, senior management and the general workforce. Mr. Raja communicates directly and regularly with teams to outline business goals and progress made. Every fortnight, LTs and SMTs receive a memo from the CEO desk, updating them about the financials, current trends and challenges and goals that may need a new plan of action due to volatile markets. The CEO letter addressed to the general workforce evokes a more personal touch as it reminds every employee of their contribution and effort in achieving Bharti AXA Life Insurance's goals. It serves as a source of motivation as people are acknowledged and recognised for any achievement during a specific period.

Truly Great Campaign: Initiated in 2020, the Truly Great Campaign is a series of weekly communications from the HR desk that recounts the latest company updates with regard to policies, processes and employee-centric programmes. From featuring employee stories, to highlighting the week gone by, this communication channel serves as an effective method of ensuring new joiners and existing employees are well-informed about the workings of Bharti AXA Life Insurance.

Function-specific townhalls: Function-specific townhalls are conducted monthly and are one of our most effective communication tools to achieve business goals. With teams ranging between 500-3,000 members, function and channel heads share a report that includes practices that work, challenges, and how to arrive at concrete solutions. This provides the employees within departments the opportunity to understand the larger business picture and recognise the role they play in reaching a certain milestone.

Great Place to Work Certification

As a result of our concerted efforts towards building a high-trust and high-performance culture, we have been awarded the certification of 'Great Place to Work' in 2022.

83%

— Employees who feel we are a great place to work

85%

— Employees who feel we are doing a good job at developing careers

94%

— Employees who are proud to be associated with us

93%

— Employees who feel that our management is competent, honest and have a clear vision

Governance

Leading with expertise and experience

Our corporate governance goes much beyond the statutory norms, to safeguard the rights of our stakeholders and maximise the returns of our shareholders. Responsibility is ingrained in our organisational culture, ensuring the highest standards of ethics and transparency.

2. General Review and State of Company Affairs

a. Industry Update

Despite 2 COVID waves in FY2021-22, Life insurance industry witnessed positive growth of ~16% in weighted individual new business premium during FY 2021-22. Private players witnessed growth of ~22% while LIC grew ~7% in FY 2021-22. Within private insurers, growth continued to be driven by Bancassurance led insurers. Private players gained market share of ~3%, resulting in 63% market share for the FY 2021-22.

The pandemic has resulted in bringing to light the importance of life insurance and health insurance as a necessary investment. People have begun to understand the importance of insurance in financial

planning amid growing uncertainties in income and medical costs. This awareness is expected to be a growth catalyst for the insurance industry in medium to long run.

India's low life insurance penetration rate along with low insurance density also provides a huge potential to penetrate the underserved segments. The resultant impact is expected to drive higher demand for insurance products, thereby leading to industry growth.

b. Performance Update 2021-22

The Company witnessed strong performance during FY 2021-22 in terms of driving better quality, better profitability and capital management. Despite the pandemic we have surpassed the level of activity of pre-COVID times, with strong results demonstrating company's resilience and agility in reacting to crisis. Key performance highlights were:

- The Company's weighted new business premium grew by 25% in FY 2021-22 (₹ 730 crs) over previous year (₹ 582 crs). This growth of 25% was 1.5x of overall industry growth (16%) and 3% higher than the private industry (22%)
- Renewal premium (₹ 1,666 crs) grew by ~11% (₹ 1,498 crs in FY 2020-21) resulting in total premium growth of 14% (₹ 2,602 crs) in FY2021-22 over previous year (₹ 2,281 crs).
- 13th month persistency improved by 400 basis points to 67.1%. Agency channel's persistency was at 76.4% (highest ever) in FY22, with ~500 basis points jump from FY21, due to better retention and collection efforts
- Asset under management (AUM) grew from ₹ 9,374 crs in FY 2020-21 to ₹ 11,025 crs in FY 2021-22.
- Net Promoter Score went up to 32 from 23 last year, due to strong execution focus on improving customer experience across all touch-points
- Customer complaints went down by 39%, driven by institutionalization of best practices like video verification during on-boarding and better engagement with customers immediately post sales
- We continued the focus on product and innovation agenda from last year, with filing of 5 new products, and launch of 8 products during the year. The new products launched in FY2020-21, FY2021-22 now contribute ~75% of overall sales
- The Company also experienced higher COVID claims which adversely impacted the statutory losses, partially offset by efficient expense control measures & higher investment income. Claims settlement ratio is expected to be in line with last year at 99.1%.

- The Company was certified as "Great Place to Work", along with the launch of Purpose, Values and Aspiration

Key focus areas for Bharti AXA Life to deliver value both for customers and the Company for the year 2021-22 included:

Digital & Technology: It is one of the key focus areas for Bharti AXA and a major enabler for the transformation. Some of the major technological achievements of Bharti AXA Life Insurance in FY22 were:

- Migration to Cloud and API architecture for agility and technology performance
- Data management through data lake implementation - Comprehensive and accurate customer, sales, operations related information
- Leverage analytics for productivity and efficiency
- Flexible rule engine for accurate and faster underwriting
- Launch of AI enabled Early Claims Warning system, Insta-Issuance and e-KYC for operational efficiency

Operations Transformation

- Launched claim express for guaranteed death claim settlement in 1 day (48% settled in 1 day). Bharti AXA understands that claims is the most critical moment of truth, hence we assure Guaranteed Settlement within defined timeline, which reflects our commitment to customers and their families.

- Focus on digital collection of renewal payments, leading to 50% digital collections. Self-service is key agenda to empower customers

- Initiated Operations/ IT transformation agenda to re-imagine all customer service journeys

Product Innovation

- 2 new retail products launched in FY22: Guaranteed Wealth Pro (Non Par) with 6 variants & Unnati (Par)

- Launched revised Group Credit Life Product

- Launched a modified Group Term Life micro for micro loans & modified Super Series product to cater to wider customer expectations

- Launched a modification of the flagship term - FTP (Flexi Term Pro) with attractive pricing

Marketing initiatives to improve awareness

- Launched Digital tax campaign 'Ab savings nahi, savEEEngs hogi with Bharti AXA Life' to increase awareness amongst our customers about the power of '3X Tax Exemptions' by investing in Life insurance

- Brand awareness score moved to 58 from 52 at end of FY21

The Company's performance on key parameters during the year was as follows:

d. New Business

Our company has adopted 100% digital onboarding of customer, and made the journey paperless. This has helped significantly in speed of issuance and distribution experience.

i. Simplification of Proposal form (eASE 2.0):

In order to make the onboarding journey simple and reduce the time in filling the proposal form, we re-looked at opportunities of optimization of the current proposal form, along with industry benchmarking. This along with auto population of existing customer details has made the customer and distributor experience to fill the form easier. Supplementing the reduction in fields with the auto population functionality, we were able to achieve a 40% reduction in time for filling the form.

ii. Implementation of E-NACH: New business & servicing

In our effort to support our drive for auto-pay adoption & improve persistency, a digital Autopay registration module has been implemented at purchase, renewal or servicing milestone. Customer can register for auto-pay digitally through any of the following options:

- Internet Banking via Account Number
- Debit Card & Credit Card

With this the process is hassle free, paperless and also enables Autopay registration within one day as compared to a few days for non-digital process.

iii. Pre-approved Sum Assured (PASA)

To improve the customer experience, we identified customer base eligible for additional Sum Assured without getting medicals done. We started a communication channel with these customers and also share the information to the respective distributors.

IV. Customer Onboarding

- Introduction of EPIVC App for enhanced customer onboarding experience & leakage control
- Multi Lingual capability at contact center to cater to customer base

V. e-Policy Kit:

Policy Document has been made available to the customer as a soft copy. This is provided as an alternate to the physical policy document dispatch. This has enabled quicker access to the document for the customer, and made the policy document soft copy available throughout the life time of the customer. Additionally, it attributed to reduced dispatch cost, as physical policy document need not be dispatched to customers who've opted for e-policy kit.

VI. Implementation of Digi locker

Digi-locker is a government initiative for having all documents consolidated at a single place. Insurance policy document via Digilocker is recognized by IRDAI. Bharti AXA life Policy Bond (policies issues post Mar'21) is now available digitally for the entire policy lifetime of the customer. Additionally, to increase the ease of access for the customer, integration has been done between Bharti AXA and Digilocker (GOI authorized application), so that Bharti AXA Life customers could download their Policy document from Digilocker itself directly by entering their policy number.

VII. EKYC and IIB during onboarding

Towards our ambition to go Digital and paperless onboarding with Quality Underwriting, we have enabled EKYC i.e. Aadhaar based authentication

by Customer wherein instant KYC verification is done without seeking any physical or scanned images of KYC from customers. This would ensure our onboarding is seamless and paperless further leading to improve issuance TAT.

Additionally, with introduction and integration with IIB would ensure quality underwriting of individual lives with proper assessment of risk and further ensuring continuity of customer.

VIII. DRC and CIBIL Integration

DRC is dynamic risk calculator which helps in eliminating the bad risk at onboarding stage especially for Term Plan (Flexi term Pro). This will help us to reduce the leakage and reduction in medical cost for adverse cases.

CIBIL Integration will help us in financial underwriting so that STP issuance can be further increased.

e. Renewals & Persistency:

Focused approach on Renewal and Persistency management in FY22 has resulted in:

- 11% growth in renewal collection for FY22
- 13th month Persistency stood at 67.1%, a growth of 4% over FY21.
- Agency channel achieved its highest ever persistency of 76.4% in the history of Bharti AXA
- CAB channel improved by 6% (from 56.3% in Mar'21 to 62.4% in Mar'22) through a clinically driven set of initiatives under project 'Parivartan'
 - Project Parivartan: CAB Persistency transformation project took a 360 degree view on entire Persistency mode, including all stake holders, support functions, Partners etc.
- Partner Engagement - Run Propensity model with Smart data management for sharper focus, Bi-weekly structured rhythm with all Silver Partners Realignment of Commercials with the top silver partners. Focused effort by partner on collection - Monthly Commitment on Collection Numbers & Input Activity; First half of every M/W/F dedicated for Renewal Calling by the entire team.

- Partner and Employee Governance through weekly tracking of commitments and follow up through digital tool VYMO
- 'SAMPARK' - An industry first initiative launched to invite customers as Guests to Bharti AXA branches with an end objective to communicate the importance of continuing a Life Insurance policy.
- Training - for all human touchpoints including distribution and call centre agents.
- Redesigned PMS, RnR and incentive schemes

Key initiatives driven in the year to improve persistency and collections:

- Improvement in Due Month Collections through a segmented approach in renewal campaigns
- Onboarding of new vendor ATS specializing in Deep Lapse conversion.
- Analytics driven segmented calling and renewal campaign management, leading to better collection of Old renewal book
- Video based Pre-issuance verification calling launched for better quality onboarding for our future book.
- Continued improvement in contactability through scrubbing, IVR BOT Blast to Non Contactable Customers, Whatsapp and SMS Communication

MO Conversions

Contactability	FY 21	FY 22
M0	42%	60%
M1	55%	75%
M2	54%	66%
M3	38%	57%
> M4	27%	49%

f. Customer Centricity Update

Customer using digital touchpoints to interact for servicing, has gone up from 43% in FY21 to 67% in FY22, this digital adoption is mainly driven through creating easy to use digital enablers and ensuring customer awareness and usage for these digital assistance tools:

i. Implementation of DigiServe portal and WebApp

Launch of revamped customer portal - "DigiServe" with a range of new features to

make digital servicing and online payment simple and hassle free. Following are the key features released in Phase I:

- Simplified login framework with multiple login options
- Single dashboard with key policy information
- Hassle free renewal payment and auto-pay activation
- Simplified e-statement downloads

ii. Implementation of WhatsApp

Making WhatsApp as a new and preferred mode of servicing by driving user focused journeys, driving customer opt-ins to drive communication through WhatsApp, and enabling key important communication and updated through this mode.

- Customer WhatsApp Opt-ins enabled across platforms, Total opt-ins have improved from 21% in FY21 to 60% in FY22;
- 37 push notifications live;
- Lead monetization through WhatsApp has enabled us to capture more than 6k Leads through this platform since its launch in Dec'21.

iii. Customer Contact Center Services

- Transitioned to Work from Home in BCP without any impact on service levels;
- Multi Lingual capability was available across all touch points;
- Service promise delivery - close looping customer requests which are escalation in nature and lead to dissatisfaction;
- Dynamic IVR at Toll free to promote self-help option to customers on services;
- Promoting digital servicing options across all touch points.

iv. Implementation of NPS (Net Promoter Score):

Customer experience framework has been strengthened this year, with the NPS improving from 23 in FY2020-21 to 32 in FY2021-22. We have enabled a listening platform within the organisation, which focuses on the detractor customers being out called to close the loop on any open issue. Additionally, the feedback captured is used to bring in strategic and tactical process improvement to drive better customer experience

v. Customer engagement - To drive stickiness, persistency and digital awareness

- Ongoing proactive customer connect and engagement has been enabled to ensure we proactively reach out to customers with

key policy and service information relevant to them

- Customers' past behaviour is used to create customer segmentation and tailored communication
- Ongoing engagement landscape is followed to catered to basis customer need, life event and policy milestones, there by enabling us to drive customer stickiness, density and persistency.

vi. Update on initiatives taken to reduce complaints:

The below measures have helped 39% reduction in complaints over FY2020-21 & 63% over FY2019-20.

- Focus on quality business and strong governance with partners, have helped us reduce CAB complaints by 54% over FY21 (3,567 in FY21 v/s 1654 in FY22);
- Constant liasoning with channel partners has led to improvement in the quality of business. On-boarding checks were strengthened to weed off business with low persistency and high complaints. This has helped us reduce complaints in the 'within 6 months vintage' from 41% in FY21 to 37% in FY22. Overall reduction of 49% complaints in this bracket, witnessed over FY'21;
- Pre-login verification by Supervisors for all cases logged by Silver Partners - Initiated from 10th June 2021. This enabled us reduce complaints for these partners by 42% over FY21;
- Business discontinued with erring partners of Online & PP Channels where the quality of business was not meeting our minimum standards.

Overall 39% decrease in the number of complaints over last FY.

Independent Auditors' Report

To
The Members of

Bharti Axa Life Insurance Company Limited

Opinion

We have audited the accompanying Financial Statements of Bharti AXA Life Insurance Company Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the related Revenue Account (also called the "Policyholders' Account", or the "Technical Account"), the Profit and Loss Account (also called the "Shareholders' Account", or "Non Technical Account"), and the Receipts and Payments Account for the year ended March 31, 2022 and summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Insurance Act, 1938, as amended by Insurance Laws (Amendment) Act, 2015 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 ("the Regulations"), Companies Act 2013 ("the Act") to the extent applicable and in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, as applicable to Insurance Companies:

- in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2022;
- in the case of the Revenue Account, of the net surplus for the year ended on that date;
- in the case of the Profit and Loss Account, of the loss for the year ended on that date; and
- in the case of the Receipts and Payments Account, of the receipts and payments for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Insurance Act, the IRDA Act, the Regulations thereunder and the Act and the Rules thereunder, to the extent applicable and we have fulfilled our other ethical responsibilities in accordance with these requirements

and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note No. 24 (b) of Schedule 16 of Notes to Accounts forming part of financial statements regarding expenses incurred in excess of limits specified by Insurance Regulatory and Development Authority of India ('Authority' / 'IRDAI') Expenses of Management Rules 2016, aggregating to ₹ 23,14,373 ('000) pertaining to F.Y. 2021-22 charged to Shareholders Account. An application has been made by the Company to IRDAI seeking forbearance of expenses in excess of the limits incurred for the F.Y: 2021-22 u/s 64K(l) of the IRDA Act.

Our opinion is not modified in respect of above matter.

Other Matter

The actuarial valuation of liabilities for life policies in force and policies where premium is discontinued is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"), which has been certified by the Appointed Actuary in accordance with the regulations. The Appointed Actuary has also certified that in his opinion, the assumptions for such valuation are in accordance with the applicable guidelines and norms, if any, issued by IRDAI and the Actuarial Society of India in concurrence with the IRDAI. Accordingly, we have relied upon the Appointed Actuary's certificate for forming our opinion on the financial statements of the Company.

Our opinion is not modified in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report, Management Report and Corporate Governance Report but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act, with respect to the preparation of these Financial Statements to give a true and fair view of the financial position, financial performance and Receipts and Payments of the Company in accordance with the requirements of the Insurance Act read with IRDA Act, the Regulations, orders/directions/circulars/guidelines issued by the IRDAI in this regard and in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, further amended by Companies (Accounting Standards) Rules, as amended from time to time, to the extent applicable and in the manner so required. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to the Financial Statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Regulations, we have issued a separate certificate dated May 18, 2022, certifying the matters specified in paragraphs 3 and 4 of Schedule C to the Regulations.
2. As required by paragraph 2 of Schedule C to the IRDAI Financial Statements Regulation and Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion and to the best of our information and according to the explanations given to us, proper books of account as required by law have been maintained by the Company, so far as it appears from our examination of those books;
 - (c) As the Company's financial accounting system is centralised, no returns for the purposes of our audit are prepared at the branches of the Company;
 - (d) The Balance Sheet, the Revenue Account, the Profit and Loss Account and the Receipts and Payments Account dealt with by this report are in agreement with the books of account;
 - (e) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, further amended by Companies (Accounting Standards) Rules, as amended from time to time, to the extent they are not inconsistent with the accounting principles prescribed in the Regulations and orders/directions issued by the IRDAI in this regard;
 - (f) In our opinion and to the best of our information and according to the explanations given to us, investments have been valued in accordance with the provisions of the Insurance Act, the Regulations and/or orders/directions issued by the Authority in this regard;
 - (g) In our opinion and to the best of our information and according to the explanations given to us, the accounting policies selected by the Company are appropriate and are in compliance with the applicable Accounting Standards specified in Sec 133 of the Companies Act and the Rules framed thereunder and with the accounting principles to the extent they are not inconsistent with the accounting principles as prescribed in the IRDA Financial Statements Regulations and orders/directions issued by the Authority in this regard;

- (h) Based on written representations from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the director is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act;
- (i) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in the **Annexure A**;
- (j) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, we report that managerial remuneration is governed u/s 34A of the Insurance Act, 1938 and requires IRDAI approval. Accordingly, the provisions of Section 197 read with schedule V to the Act are not applicable, and hence reporting under Section 197(16) is not required.

However, sitting fees paid to the Directors is in compliance with Section 197(5) of the Act;

3. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
 - a. The Company has disclosed the impact of pending litigations as at March 31, 2022 on its financial position in its financial statements - Refer Note No. 5(a) of Schedule 16 in the Notes to Accounts forming part of financial statements;
 - b. The Company did not have any long-term contracts. In case of the Derivative Contract entered into by company, provision, as required under the applicable law or accounting standards, for material foreseeable losses has been made on mark to market valuation of such derivative contract;
 - c. There are no amounts which are required to be transferred, to the Investor Education and Protection Fund by the Company for the year ended March 31, 2022.
 - d. i) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in

writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries

- ii) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries - and

- iii) In our opinion, Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- e. The Company has not declared or paid dividend during the year.

“Annexure A” to the Independent Auditors’ Report

(Referred to in paragraph 2(i) under ‘Report on Other Legal and Regulatory Requirements’ forming part of the Independent Auditors’ Report of even date)

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to Financial Statements of **Bharti AXA Life Insurance Company Limited** (“the Company”) as of March 31, 2022, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls, based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”), issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to Financial Statements, based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Financial Statements included obtaining an understanding of internal financial controls

with reference to Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to the Financial Statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company’s internal financial controls with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes, in accordance with generally accepted accounting principles. A company’s internal financial controls with reference to Financial Statements includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- 2) provide reasonable assurance that transactions are recorded, as necessary, to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls over with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial control with reference to the Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matter

The actuarial valuation of liabilities for life policies in force and policies where premium is discontinued is required to be certified by the Appointed Actuary as per the regulations, and has been relied upon by us, as mentioned in “other matter” para of our audit report on

the financial statements for the year ended March 31, 2022. Accordingly, our opinion on the internal financial controls with reference to financial statements does not include reporting on the operating effectiveness of the Management’s internal controls over the valuation and accuracy of the aforesaid actuarial valuation.

Independent Auditors' Certificate

To
The Members of
Bharti AXA Life Insurance Company Limited

(Referred to in paragraph 1 of our ‘Report on Other Legal and Regulatory Requirements’ forming part of the Independent Auditors’ Report for the year ended March 31, 2022)

This certificate is issued to comply with the provisions of paragraphs 3 and 4 of Schedule C to be read with Regulation 3 of the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor’s Report of Insurance Companies) Regulations, 2002 (the “IRDA Financial Statements Regulations”).

Management Responsibility

The Company’s Board of Directors is responsible for complying with the provisions of the Insurance Act, 1938 as amended from time to time including amendment brought by Insurance Laws (Amendment) Act, 2015 (the “Insurance Act”) read with the Insurance Regulatory and Development Authority Act, 1999 (the “IRDA Act”), the IRDA Financial Statements Regulations and orders/ directions issued by the Insurance Regulatory and Development Authority of India (the “IRDAI”), which includes the preparation of the Management Report. This includes collecting, collating and validating data and designing, implementing and monitoring of internal controls suitable for ensuring compliance as aforesaid.

Auditors’ Responsibility

Our responsibility, for the purpose of this certificate, is limited to certifying matters contained in paragraphs 3 and 4 of Schedule C of the IRDA Financial Statements Regulations.

We conducted our examination in accordance with the Guidance Note on Audit Reports and Certificates for Special Purposes issued by the Institute of Chartered Accountants of India (the “ICAI”), which include the concepts of test checks and materiality. The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that perform audits and reviews of historical financial information and other assurance and related services engagements issued by the ICAI.

Opinion

Based on our audit of financial statements for the year ended March 31, 2022 and in accordance with the information and explanations given to us and to the best of our knowledge and belief and based on our examination of the books of account and other records maintained by the Company for the year ended March 31, 2022, we certify that:

1. We have reviewed the Management Report attached to the financial statements for the year ended March 31, 2022, and on the basis of our review, there are no apparent mistakes in or material inconsistencies with the financial statements;
2. Based on the management representations and compliance certificates submitted to the Board of Directors by the officers of the Company charged with compliance, and the same being noted by the Board, nothing has come to our attention that causes us to believe that the Company has not complied with the terms and conditions of registration stipulated by IRDAI;

3. We have verified the cash balances, on a test check basis, at some of the locations of the Company by actual inspection thereof. For the remaining locations of the Company that are not so verified, we have relied on the certificate/ confirmation re-ceived from those locations in-charge persons and verified the subsequent deposits thereof in the Bank. Securities relating to the Company’s investments and policy loan as at March 31, 2022, were verified by us on the basis of certificates/confirmations received from the Custodian and/or Depository Participants appointed by the Company, as at March 31, 2022. The Company does not have reversions and life interests;
4. The Company is not a trustee of any trust; and
5. No part of the assets of the Policyholders’ Funds has been directly or indirectly applied in contravention to the provisions of the Insurance Act, 1938, relating to the application and investments of the Policyholders’ Funds.

Restriction on Use

This certificate has been issued solely in compliance with the requirements of Schedule C read with Regulation 3 of IRDA Financial Statements Regulations and may not be suitable for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care of for any other purpose or to any other party to whom it is shown or into whose hand it may come without our prior consent in writing.

Schedule 16 - Notes annexed to and forming part of the Balance Sheet as at 31 March, 2022, the Revenue Account and the Profit and Loss Account for the Year Ended 31 March, 2022.

1. Background

Bharti AXA Life Insurance Company Ltd. ('the Company') was incorporated on 27 October, 2005 as a Company under the erstwhile Companies Act, 1956 to undertake and carry on the business of life insurance. The Company has obtained a licence from the Insurance Regulatory and Development Authority of India ('IRDAI') on 14 July, 2006 for carrying on the business of life insurance and is in-force. The Company commenced its commercial activities on 22 August, 2006.

The Company's life insurance business comprises of individual life business comprising of participating, non-participating, unit-linked insurance products which are further divided into life, pension products, and health products. Company also deals into group products comprising of non-participating group credit life products and linked group gratuity products.

2. Significant Accounting Policies

a) Basis of Preparation of Financial Statements

The financial statements are prepared under the historical cost convention unless otherwise stated, on accrual basis of accounting unless otherwise specified and in accordance with accounting principles generally accepted in India in compliance with the applicable accounting standards under section 133 of the Companies Act, 2013 read with Companies (Accounting standards) Rule, 2021, and in accordance with the provisions of the Insurance Act 1938, (amended by the Insurance Laws (Amendment) Act, 2015), Insurance Regulatory and Development Authority Act, 1999., the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002, various orders/directions/circulars issued by the IRDAI and the practices prevailing within the insurance industry in India. Accounting policies applied have been consistent with previous year except where differential treatment is required as per new pronouncements made by the regulatory authorities.

b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Management to make estimates and assumptions that impact the reported amount of assets, liabilities, revenues and expenses and disclosure of contingent liabilities as at the date of the financial statements. The estimates and assumptions

used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Difference between the actual and estimates are recognised in the period in which they actually materialise or are known. Any revision to accounting estimates is recognised prospectively. Management believes that the estimates used in preparation of Financial Statements are prudent and reasonable.

c) Revenue Recognition

i. Premium

New business and in-force policies - Premium (net of Goods & Service Tax- GST) in respect of non-linked business is recognised as income when due from policyholders. In respect of linked business, premium income is recognised when the associated units are allotted. Top up premium is considered as single premium.

Lapsed policies - Premium on lapsed contracts are recognised when such policies are reinstated.

- ii. In case of unit linked business, fund management charges, administration charges, mortality charges and premium allocation charges are recognised in accordance with the terms and conditions of the policy.
- iii. Interest on delayed payment of premium is recognised on receipt basis and as and when the risk is underwritten.
- iv. Dividend income is accounted for on "ex-dividend" date in case of listed equity and preference shares and in case of unlisted equity and preference shares, when the right to receive dividend is established.
- v. Interest income is recognized on accrual basis. Accretion of discount and amortization of premium in respect of debt securities is affected over the period of maturity/holding on constant yield-to-maturity except in respect of treasury bills, certificate of deposits and commercial papers in linked business which is on straight line method.
- vi. Income from rent on Investment Properties: Rentals on investment property are recognised on straight line basis over the lease term.
- vii. Realised gains and losses on investments are calculated as the difference between the net sales proceeds / redemption proceeds and their amortized cost, which is computed on a weighted average method, as on the date of sale.

Schedules

for the year ended 31 March 2022

Bharti AXA Life Insurance Company Limited

IRDA Registration No: 130 dated 14 July, 2006

viii. Fees received on lending of equity shares under Securities Lending and Borrowing scheme (SLB) is recognised as income over the period of the lending on a straight-line basis.

ix. Interest income on loans against policies is accounted for on an accrual basis.

d) Reinsurance Premium

Reinsurance premium ceded is accounted in accordance with treaty and on due basis.

e) Claims/Benefits

Death and Rider Claims are accounted when intimated. Maturity and Survival benefits are accounted on the due date. Surrenders & Partial Withdrawals are accounted as and when notified. Claims cost consist of the policy benefit amounts and claims settlement costs, wherever applicable.

Repudiated claims disputed are provided for based on probability assessments of each case considering the facts and evidences available in respect of such claims.

Amounts recovered / recoverable from reinsurer are accounted in the same period as that of the related claims.

f) Acquisition Costs

Acquisition cost, representing costs incurred for acquisition of insurance contract are expensed in the period in which they are incurred.

g) Policy Liabilities

Liabilities on life policies are determined by the Appointed Actuary using generally accepted actuarial practice in accordance with the standards and guidance notes issued by the Institute of Actuaries of India, the requirement of the Insurance Act, 1938 and the Insurance Regulatory and Development Authority of India (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016 issued by the IRDAI.

The liabilities are calculated in a manner that together with estimated future premium income and Investment income, the Company can meet estimated future claims (including bonus entitlements to policy holders) and expenses.

The unit liability under the unit linked policies is the number of units in the policyholder's account multiplied by the published unit price at the valuation date. The non-unit reserve in case of linked policies is calculated using a prospective cash flow method and is the amount required to meet future outgo such as claims and expenses.

The liabilities under non-linked individual policies and single premium group insurance contracts are

calculated by Gross Premium Valuation Method. For one-year group term insurance contracts, unearned premium method is used. For riders, liability is higher of that calculated using the Gross Premium Valuation Method and Unearned Premium Method. The actuarial assumptions are given in Note 3 below.

The surplus arising in the participating segment which has not been allocated to the policyholders has been transferred to the funds for future appropriations.

h) Investments

Investments are made in accordance with the Insurance Act, 1938, the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, as amended and orders/circulars / notifications issued by IRDAI from time to time.

Investments are recorded on the trade date at cost, which includes brokerage, statutory levies, if any and excludes pre-acquisition interest paid, if any, on purchase.

Classification

Investments intended to be held for a period of less than twelve months or those maturing within twelve months from the balance sheet date are classified as "Short Term Investments".

Investments other than Short Term are classified as "Long Term Investments".

Valuation of Investments

Valuation – Shareholders' investments and Non-Linked Policyholders' investments

Debt securities:

Debt securities, including Government securities are considered as "held to maturity" and are stated at historical cost subject to amortisation of premium or accretion of discount on constant yield-to-maturity basis. However, Additional Tier-1 (AT1) bonds are valued at market price on the basis of Credit Rating Information Services of India Limited (CRISIL) Bond Valuer. In respect of investments in AT 1 Bonds, the corresponding unrealised investment gains or losses are reported in the Balance Sheet under Credit / (Debit) Fair Value Change Account (Net)

Tri-party Repo (Treps) are valued at cost subject to accretion of discount on straight line basis

Mutual Fund:

Investments in mutual funds are stated at previous day's net asset value (NAV) declared by the respective funds. Exchange Traded Funds (ETF) and Real Estate Investment Trust (REITs) are measured at market value on the Balance Sheet date. For the purpose of determining market value the last quoted closing prices on the Primary Exchange i.e.

Schedules

for the year ended 31 March 2022

Bharti AXA Life Insurance Company Limited

IRDA Registration No: 130 dated 14 July, 2006

the National Stock Exchange of India Ltd. ('NSE') is considered. In respect of investments in mutual funds, the corresponding unrealised investment gains or losses are reported in the Balance Sheet under Credit / (Debit) Fair Value Change Account (Net).

Alternative Investment Funds (AIF):

As per the methods for valuation prescribed under these regulations investments in AIF are valued at latest available NAV, the corresponding unrealised investment gains or losses are reported in the Balance Sheet under Credit / (Debit) Fair Value Change Account (Net).

Equity and Preference Shares:

Listed equity and preference securities are measured at market value on the Balance Sheet date. For the purpose of determining market value the last quoted closing prices on the Primary Exchange i.e. NSE is considered, where price is not available on NSE then the last quoted closing price on Bombay Stock Exchange (BSE) will be considered. Unlisted equity securities are measured at historical cost. In respect of investments in equity shares the corresponding unrealised investment gains or losses are reported in the Balance Sheet under Credit / (Debit) Fair Value Change Account (Net). In case of diminution, other than temporary, in the market value of investments as on the Balance Sheet date, the amount of diminution is recognised as an expense in the Revenue / Profit and Loss Account as the case may be. Equity shares if any lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

Bonus entitlements are recognised as investments on the 'ex-bonus date'. Right entitlements are accrued and recognised on the date the original shares (on which the right entitlement accrues) are traded on the stock exchange on the 'ex-rights date'.

Investment in Real Estate:

Investment property is held to earn rental income or for capital appreciation and is not occupied by the Company. Investment property is initially valued at cost including any directly attributable transaction costs. Investment property is revalued at least once in every three years. The change in carrying amount of investment property is credited to "Revaluation reserve" and the corresponding reduction is in Accumulated Depreciation Account in the Balance Sheet.

Forward Rate Agreement:

The Company enters into Derivative contracts, as permitted by IRDAI i.e. Forward Rate Agreements only for the purpose of Hedging. Derivatives are

undertaken by Company solely for the purpose of hedging interest rate risks on account of following:

- Reinvestment of maturity proceeds of existing fixed income investments;
- Investment of interest income receivable; and
- Expected policy premium income receivable on insurance contracts which are already underwritten

Hedge effectiveness is determined based on the principles laid down in the "Guidance Note on Accounting for Derivative Contracts" issued by The Institute of Chartered Accountants of India and IRDAI Investment Master Circular issued in May 2017. The company uses regression methodology to determine Hedge effectiveness. If the hedge is ineffective, then the movement in the Fair Value is charged to the Profit and Loss Account. If the hedge is effective, the effective and ineffective portion of the movement in the Fair Value of the Underlying and the derivative instrument is determined by the Dollar Offset method. The effective portion is transferred to "Fair Value Change" Account in the Balance Sheet and the ineffective portion is transferred to the Profit and Loss Account.

The Forward Rate Agreement (FRA) contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from an approved rating agency and present value of contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till FRA contract settlement date, at applicable INR-OIS rate curve sourced from Bloomberg.

Valuation – Linked Business

Debt securities:

Debt securities, other than Government securities, are valued on the basis of CRISIL Bond Valuer.

Government securities other than Treasury bills are valued at prices obtained from CRISIL GILT Prices.

Treasury bills, Certificate of Deposits and Commercial Papers are valued at cost subject to accretion of discount on straight line basis.

Tri-party Repo (Treps) are valued at cost subject to accretion of discount on straight line basis.

Mutual Fund:

Investments in mutual funds are stated at previous day's NAV declared by the respective funds. ETF and Real Estate Investment Trust (REITs) are measured at market value on the Balance Sheet date. For the purpose of determining market value the last quoted closing prices on the Primary Exchange i.e. NSE is

IRDA Registration No: 130 dated 14 July, 2006

considered. Unrealised gains and losses arising due to changes in market value are attributed to unit holders and are recognised in the Revenue Account of the fund.

Equity and Preference Shares:

Listed equity and preference securities are measured at market value on the Balance Sheet date. For the purpose of determining market value, the last quoted closing price on the Primary Exchange i.e. NSE is considered, where price is not available on NSE then the last quoted closing price on BSE is considered. Unrealised gains and losses arising due to changes in market value are attributed to unit holders and are recognised in the Revenue Account of the fund.

Bonus entitlements are recognised as investments on the 'ex-bonus date'. Right entitlements are accrued and recognised on the date the original shares (on which the right entitlement accrues) are traded on the stock exchange on the 'ex-rights date'.

Impairment of Investments

The Company's Management periodically assesses, using internal and external sources, whether there is any indication of impairment of investments or reversal of impairment loss. An impairment loss is accounted for as an expense in the Revenue Account or the Profit and Loss Account to the extent of the difference between the re-measured fair value of the investments and its acquisition cost as reduced by any earlier impairment loss accounted for as an expense in the Revenue Account or Profit and Loss Account.

Any reversal of impairment loss, earlier accounted for in Revenue Account or Profit and Loss Account, is accounted for in the Revenue Account or Profit and Loss Account respectively.

Provision for Non-Performing Assets (NPA)

All assets where the interest and / or installment of principal repayment remain overdue for more than 90 days are classified as NPA at the Balance Sheet date.

Transfer of Investments

i) From Shareholders' account to non-linked policyholders' account

Transfer of Investments other than debt from the Shareholders' account to the non-linked policyholders' account is carried out as per the conservative approach, i.e., at the cost price or market price, whichever is lower. In case of

Debt securities, all transfers are to be carried out at the lower of the market price and the net amortized cost.

ii) Inter fund transfer of investments (if any), between Unit Linked funds

- a) In case of equity, preference shares, ETFs and Government Securities market price of the latest trade.
- b) In case of securities mentioned in (a) if the trade has not taken place on the day of transfer and for all other securities not part of (a) last available valuation price is considered.

i) Fixed Assets

A. Tangible Assets

Fixed assets are stated at cost less accumulated depreciation. Cost comprises the purchase price and any cost directly attributable to bringing the asset to its working condition for its intended use, net of GST input credit receivable except in case of leasehold improvements where in the asset value is gross of GST input credit. Subsequent expenditure related to fixed asset is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of item can be measured reliably. Other repairs and maintenance costs are recognized in the revenue account as and when incurred.

B. Intangible Assets

Intangible assets are stated at cost less accumulated amortization. Cost comprises the purchase price and any cost directly attributable to bringing the asset to its working condition for its intended use, net of GST input credit receivable. Subsequent expenditure related to fixed asset is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of item can be measured reliably.

C. Capital Work in Progress

Capital work in progress includes assets not ready for the intended use and is carried at cost, comprising direct cost and related incidental expenses.

Schedules

for the year ended 31 March 2022

Bharti AXA Life Insurance Company Limited
IRDA Registration No: 130 dated 14 July, 2006

j) Depreciation/Amortisation

The Company is charging depreciation on fixed assets under the straight line method, on a pro-rata basis based on the useful life of assets as prescribed in table below after retaining the residual value, if any, of the respective assets.

Class of Asset	Estimated Useful Life as per Schedule II Companies Act, 2013	Estimated Useful Life as per Management
Furniture and Fixture	10 years	10 years
IT Equipment	3 years	5 years
Networking Equipment	6 years	6 years
Office Equipment	5 years	5 years
Investment Property- Real Estate	60 years	55 years
Building	60 years	55 years
Office Equipment (signage / sign board)	5 years	3 years

Depreciation on Investment Property is provided on Straight Line Method (SLM) considering the useful life of 60 years in conjunction with the Schedule II of Companies Act, 2013. However, as the Company had purchased the commercial property after 5 years of its construction, the useful life in the books has been considered as 55 years. The carrying amount is shown in the balance sheet net of depreciation. The depreciation for the period is initially netted off against investment income in Revenue Account and depreciation on the Revalued amount is subsequently transferred from Revaluation Reserve to the accumulated balance of Profit and Loss account.

Leasehold Improvements are amortised over the initial lease period of respective leases.

Assets individually costing ₹ 5,000 or less are fully depreciated in the year of acquisition.

Additions to the fixed assets are depreciated over the remaining useful life of the original asset. Depreciation / Amortization is charged on pro-rata basis from the date on which the asset is available for use and in case of assets sold, up to the previous date of sale.

Intangible assets comprising of website and computer software including improvements, server software and license fee for operating system are amortized over a period of 6 years, being the management's estimate of the useful life of such intangibles.

k) Impairment of Fixed Assets:

The Company assesses at each Balance Sheet date whether there is an indication that an asset may be impaired. If any such indication exists, the Company

estimates the recoverable amount of the asset. If such recoverable amount of the asset is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Revenue Account.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss.

i) Where the Company is the lessee

Finance Lease

Assets acquired on 'finance lease' which transfer risk and rewards of ownership to the Company are capitalised as assets of the Company at lower of the fair value of the asset or present value of minimum lease payments. Depreciation of capitalised leased assets is computed over the lease term. Lease rentals payable is apportioned between principal amount and finance charges using the internal rate of return method. Finance charges are expensed over the period of the contract to reflect a constant periodic rate of interest on the outstanding liability.

Operating Lease

Leases where the lessor effectively retains substantially all the risks and rewards of ownership over the lease term are classified as Operating Leases. Lease payments under an operating lease are recognised as expense on straight line basis over the lease period.

ii) Where the company is the lessor

Assets subject to operating leases are included in Investment Property. Lease income is recognised in the Revenue Account on a straight-line basis over the lease term.

m) Foreign Currency Transactions

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities in foreign currency as at the Balance Sheet date are converted at the exchange rates prevailing as at that date.

Exchange differences either on settlement or on translation are recognised in the Revenue Account or Profit and Loss Account as applicable.

Benefits such as salaries, bonus and other short term benefits are recognized in the period in which the employee renders related services. All short term employee benefits are accounted on undiscounted basis.

Post-Employment Benefits

Defined Contribution Plans

Provident Fund

The Company provides for provident fund benefit to the employees, which is a defined contribution plan. Under the plan, the Company contributes to a Government administered Provident fund and has no further obligation beyond making its contribution. Such contribution is charged to the Revenue Account as incurred.

Defined Benefit Plan

Gratuity

The Company's Gratuity plan is a defined benefit plan. The liability under the plan is determined on the basis of an independent actuarial valuation. Provision for Gratuity is accounted taking into consideration actuarial value of plan obligation and fair value of plan assets as at the balance sheet date. The actuarial valuation method used by independent actuary for measuring the liability is the Projected Unit Credit Method.

The Company has created a Gratuity Trust. The Company makes contribution to a gratuity fund administered by the trustees of Bharti AXA Life Insurance Company Limited employees' group gratuity trust. The plan provides a payment to vested employees at retirement or termination of employees based on respective employee's salary and the years of employment with the Company.

Actuarial gains and losses comprise of experience adjustments and the effects of changes in actuarial assumptions are recognised immediately in the Revenue Account as income or expense. Obligations is measured at present value of estimated future cash flows using a discounted rate that is determined by reference to market yield at the balance sheet date on government bonds.

Other Long Term Employee Benefits

I. Compensated absences and leave entitlements

Long term accumulating leave entitlements are provided on the basis of actuarial valuation using the projected unit credit method as at the balance sheet date

II. The Company has a Long Term Incentive Plan ('LTIP') for selected employees. The plan is a discretionary deferred compensation plan with a vesting period of three years from the year of first entitlement of an employee. Provision for LTIP liability is accrued and provided for on the basis of actuarial valuation made at the balance sheet date. Once, the liability under the plan is vested on employees, it is carried as liability in the balance sheet till the final disbursement. The value of such incentive is based on the Company performance measured on specified key performance indicators

III. The Company has launched a Special Retention Plan which will be payable in cash. The target cash incentive award under this plan will be a percentage of the fixed pay.

IV. The Company has introduced a "Stock Appreciation Rights (SAR)" plan that seeks to pay cash Incentive to eligible and selected employees derived from the change in the enterprise value at the date of vesting.

o) Taxation

Unutilized credits, if any, are carried forward for adjustment in subsequent periods. GST paid for eligible input services not recoverable by way of credits are recognized in the Revenue account as expense.

q) Provisions and Contingent Liabilities

The Company recognises provision (net of reinsurance/recovery) when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation.

No provision is recognised for –

- A. Any possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or
- B. Any present obligation that arises from past events but is not recognised because-
 - a. It is not possible that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - b. A reliable estimate of the amount of obligation cannot be made.

Such obligations are recorded as Contingent Liabilities. These are assessed periodically and only that part of the obligation for which an outflow of resources embodying economic benefits is probable, is provided for (net of reinsurance), except in the extremely rare circumstances where no reliable estimates can be made.

Contingent Assets are not recognised in the financial statements since this may result in the recognition of income that may never be realized.

r) Loan on policies:

Loans are valued at historical cost less repayments. Interest income on loans is accounted for on accrual basis and capitalized at every policy anniversary date.

s) Unclaimed amount of policyholders:

year, the gross premium valuation method is used. In case of riders, liability is higher of Gross Premium reserves method and Unearned Premium method.

Key Assumptions:

Liabilities are calculated using assumptions for interest, mortality, lapse, expense, and inflation together with allowance for taxation and allocation of profits to shareholders. These assumptions are determined as prudent estimates at the date of valuation with allowances for adverse deviations. The company has an annual process of reviewing the assumptions based on experience.

- Interest Rate:**
The interest rates used for valuing the liabilities are in the range of 6.2% to 6.95% per annum for first 5 years and 5.4% to 6.2% post five years depending on the type of product.
- Mortality:**
Mortality rates used are based on published mortality table Indian Assured Lives Mortality (IALM) (2012-14) standard table, adjusted to reflect expected experience and allowances for adverse deviation.
- Expenses:**
Expenses are provided for basis long term expected renewal expense levels. The renewal expense assumptions for individual business are INR 649 p.a. per policy inflating at 4.25% p.a. and 1.54% of premium. The maintenance expense assumptions for individual reduced paid up business are INR 490 p.a. per policy inflating at 4.25% p.a.
- Free-look:**
If a policy which is inforce as at the valuation date is subsequently cancelled in the free-look period, then there could be strain in the policyholder fund on account of the amount payable on free-look cancellations. In order to avoid any future strain provision equivalent to 4% of the new business premium collected during the valuation month is kept as Free-look reserves.

Miscellaneous/ Other Reserves

Miscellaneous reserves or Other reserves are held as global reserves over and above the policy level reserves in accordance with accepted actuarial practice. They include:

- Provision for Incurred but not Reported (IBNR) Claims reserves
- Provision for policies in respect of which extra premiums have been charged on account of underwriting of substandard lives

- Provision for discontinued policies under which a liability exists or may arise in future (eligible for revivals)
- Appropriate provision for future expenses at least equal that required if the company were to close the new business one year after the valuation date
- Provision for AIDS, Unearned Premium Reserve etc.

4. Risk Management Architecture

Risk Management Framework:

Bharti AXA has a Board Risk Committee reporting to the Board of Directors. Board Risk Committee oversees all the risks to provide local board and management with a holistic, comprehensive and consolidated view of the risks the entity faces. Day to day management of risk is delegated through the CEO to management for risk management in their respective business. Management is supported by the risk functions and the Chief Risk Officer.

Operational Risk Framework: Reporting to the Board Risk Management Committee

I. Definitions and Classification of Risk

Risk is defined as the possibility of a negative impact to Bharti AXA's financial position, performance, and/or reputation.

The table below defines the various kinds of risk categories:

II. Risk Appetite

Risk Category	General Coverage
Liability	There are many different liability risks that a business may be exposed to. For example, a company could face reinsurance related risks, product liability risks, or contractual liability risks.
Investment Risk	This includes market risk, credit risk and liquidity risk. Market risk reflects the exposure of the business to the performance of the financial markets. Market movements impact the level of fees on unit-linked business, returns earned by policyholders and investment earnings on shareholder capital. Credit risk is the risk that the value of a debt security, or a commitment provided by a reinsurer or derivative counterparty, may change due to the counterparty defaulting, or a change in the likelihood of a future default. Liquidity risk includes both the risk that assets may not be realized at their fair value in a short period of time, and the risk that the company may not have access to enough liquid
Operational Risk	Operational risk refers to the risk of loss arising from inadequate or failed internal processes, personnel or systems or from external events.
Regulatory Risk	Regulatory risk refers to the risks, costs and problems arising from new regulations/laws or modification to existing regulations/laws

Reputational Risk	It refers to the risk that negative publicity regarding an institution's business practices will lead to a loss of revenue or increased litigation. Reputation can be damaged as a result of practically any type of risk, including poor corporate governance, unethical practices, cyber risks, compliance failures and dubious sales practices.
Strategy Risk	Strategy Risk refers to the risk arising from adverse business decisions or improper implementation of those decisions. They may also arise from an inability to adapt to changes in the business environment, such as economic changes, changes in competition, social and regulatory changes.

The objective of risk appetite framework is to ensure that appropriate governance, reporting, limits and decision processes have been set up to drive risk management decisions. It is a structured process to ensure consistency of risk tolerance, to have a Clearly stated risk appetite, to monitor the accumulation of risks, and to manage its exposure on a regular basis.

Bharti AXA has a formalized and documented risk appetite framework and with clearly defined governance around the risk appetite. Local actuarial risk team reports the 1/20 year of key financial and demographic risks on financial indicators covering dimensions, namely Value, duration and Capital (Solvency). The risk appetite is expressed by setting risk limits and alert levels on most relevant market consistent risk indicators. Risk exposure is monitored and reported on a quarterly basis in Local Risk Management Committee. Modification to risk appetite shocks or limits can be made only through prior approval of Local Risk Management Committee.

III. Annual Risk Assessment Process by Functional Unit

An annual risk assessment is conducted for the enterprise level risk registers Management, assisted by risk function, is responsible for planning and facilitating the process. The risk profile is documented in each functional unit's risk register. It is important that there is a consistent and structured approach to identifying, analyzing, evaluating and managing risks. The approach is described below.

Establish the context: requires an examination of Bharti AXA's external and internal environment, risk appetite, key strategic objectives and stakeholders' expectations.

19. Taxation

- No provision for taxation has been made in the accounts since the Company does not have any taxable income in the current accounting period.
- In view of no virtual certainty, due to a long gestation business, as a matter of prudence, the Company deems it proper not to recognise deferred tax assets.
- Consequent to the inquiries initiated with some vendors of the Company, GST investigation wings have issued summons on the Company seeking data and information to demonstrate that the Company has not taken any credit wrongfully. During investigations both vendors as well as the Company were not able to provide complete documents as required by the Authorities. Hence GST investigations wing advised that this amount be reversed/pay the corresponding input credit along with other statutory dues to conclude the matter. The Company believes that the input credits under consideration are lawfully available and the same has been duly intimated to the authorities. However, as a responsible law abiding corporate citizen, to ensure peace and minimize litigation and attain closure on the matter the Company has reversed/paid an input credit of ₹ 49.95 crores along with interest and penalty aggregating to ₹ 21.50 crores covering period from July 1, 2017 to March 31, 2022 and filed letters for closure of the proceedings. (Refer note no 33)

The said amount has been charged to Profit and Loss Account (Shareholders Account).

20. Segment Reporting

In accordance with the IRDAI Financial Statement Regulations read with Accounting Standard - 17 on "Segment Reporting" prescribed in the Companies (Accounting Standards) Rules, 2006, life insurance companies are required to prepare Segmental Revenue Account and Segmental Balance Sheet. The Company's business is segmented into Individual Participating Life, Individual Participating Pension, Individual Non-Participating Life, Individual Non-Participating Health, Linked Pension, Linked Life, Linked Group Gratuity and Group Non-Participating business. Since the Company has conducted business only in India, there is only one geographical segment.

Income, expenses, assets and liabilities directly attributable or allocable to the segments are recorded and disclosed under the respective segments in the Segmental Revenue Account and Balance Sheet.

- Revenue and expenses, assets and liabilities, which are directly attributable and identifiable to the respective segments, are considered on an actual basis.

37. Revaluation & Depreciation on investment property:

Investment property has been revalued on 1st March 2021 and the valuation has been completed by Colliers International (India) Property Services Pvt. Ltd, an independent valuer which are regulated by the Royal Institution of Chartered Surveyors (RICS). The valuation report is prepared in strict accordance with the Royal Institution of Chartered Surveyors (RICS) Global and India valuation professional standards incorporating the International Valuation Standard Council (IVSC) valuation standards

The valuer has adopted Market Approach (Direct Sales Comparison Method) which provides an indication of value by comparing the asset with identical or similar assets for which price information is available. By analyzing such sales, which qualify as 'arms-length' transactions, between willing buyers and sellers, adjustments are made for size, location, time, amenities and other relevant factors when comparing such sales prices to assess the value of the subject asset. This approach is commonly used to value assets where reliable sales evidence of assets of a similar nature is available.

During the year ended March 31, 2022, the Company has decided to use the investment property for use in service and administrative purpose. Consequently, value of the property amounting to ₹ 418,750 ('000) has been reclassified from investment property in Schedule 8A to fixed assets in Schedule 10. Thus, the Revaluation Reserve have been adjusted for ₹ 47,230 ('000), being transfer of revaluation reserve to revenue account under PAR segment (net of depreciation of ₹ 1,300 ('000) on revalued amount) from date of its classification as

The company has put in place Policies and Procedures, which emphasizes the importance of a robust Risk Management framework in accordance with Corporate Governance norms issued by the Regulator, Insurance Regulatory Development Authority of India (IRDAI).

The Risk Management Strategy is embedded in the organization culture at every stage of decision making and operational implementation.

Risk Architecture:

Governance Structure:

The risk management structure comprises of the Risk Management team and function heads governed by Board Level Risk Management Committee.

Risk Management framework:

Role & Responsibilities of Board Risk Management Committee:

The Risk Management effectiveness is reviewed by the Board Risk Committee on a quarterly basis as per the terms of reference of the Risk Management Committee.

The Risk Management Committee is a sub-committee of the Board Committee and the Board also reviews certain critical points of Risk Management.

The Risk Management policy is reviewed at least annually by the Board and approved. Further, all critical decisions, business update is presented at the Board Committee level which includes both performance and updates of any relevant risk parameters.

The specific review areas of the Risk Management Committee are as follows:

- Reviewing and assessing the integrity and adequacy of the risk management function;
- Overseeing the establishment and implementation of the risk management framework;
- Reviews market conduct practices;
- Ensuring that major business risks are identified and managed appropriately;
- Reviewing and approving the annual Risk Management Plan; and
- Reviewing the operations of the risk management function and advising the risk management function in terms of critical projects to be undertaken.

Activities of Risk Management

- Key risks identified are reviewed by Board’s Risk Management Committee along with mitigation plan and monitored by Risk Management team thereafter.
- One of the critical components of ERM framework is Risk Appetite levels of major risks across departments, which enables the business to optimize risk- decisions in a manner consistent with its stakeholder’s expectations.
- Company also has in place Operational Risk Management framework (ORM) that supports excellence in business processes, system and facilitates matured business decisions to move to a proactive risk assessment.
- Key components of ORM framework that are in place includes Operational Loss, Risk Control Self-Assessment, Key Risk Indicators across Risk Registers, and risk assessment program for New Product launch, Vendor On-boarding as well as process change management.

- Bharti AXA has implemented robust ERM and ORM framework including various components that has helped it to always prepare on pro-active basis for any critical strategic and operational change management issues.
- Critical component of overall governance framework Bharti AXA is integrated risk management structure consisting of Risk Management Team and Functional Heads governed by Board Level Risk Management Committee.

Annual Risk Assessment Process

An annual risk assessment is conducted to enable a full refresh of each functional unit’s risk profile. Management, assisted by risk function, is responsible for planning and facilitating the process. The risk profile is documented in each functional unit’s risk register. It is important that there is a consistent and structured approach to identifying, analyzing, evaluating and managing risks. The approach is described below.

Establish the context: Review the existing Risk Registers w.r.t changes in process, enhancements, automations, IA/EA/IRDA observations, risk performance in the previous year.

Identify risks: Conduct discussions with Functional Stakeholders on:

- Deliberating on the existing risks & effectiveness of controls around the same.
- Recommend changes to the existing appetite levels wherever required
- Completeness of the controls documented and residual risk identification
- Additional Risks which need to be added with corresponding appetite levels.

Evaluate and manage risks: Based on the fixed appetite levels, the risks will be assessed on a score to arrive at the department Risk Score. Action plan progress is monitored on a quarterly basis. Risk Management Team is responsible for highlighting changes being finalized in all risk registers. Relevant EXCOM members should be informed and be responsible for working on action plans.

11. Valuation of Investments

Shareholders’ investments and Non-Linked Policyholders’ Investments Debt securities:

Debt securities, including Government securities are considered as “held to maturity” and are stated at historical cost subject to amortisation of premium or accretion of discount on constant yield-to-maturity basis. However, AT1 bonds are valued at market price on the basis of CRISIL Bond Valuer.

Tri-party Repo (Treps) (Earlier Named as CBLO) are valued at cost subject to accretion of discount on straight line basis

Mutual Fund:

Investments in mutual funds are stated at previous day’s net asset value (NAV) declared by the respective funds. Exchange Traded Funds are measured at market value on the Balance Sheet date. For the purpose of determining market value the last quoted closing prices at the National Stock Exchange of India Ltd. (‘NSE’) is considered.

Alternative Investment Funds (AIF):

Investments in AIF are valued at latest available NAV.

Equity shares and Preference Shares:

Listed equity and preference shares are measured at market value on the Balance Sheet date. For the purpose of determining market value the last quoted closing prices at the National Stock Exchange of India Ltd. ('NSE') is considered, where price is not available on NSE then the last quoted closing price at BSE will be considered. Unlisted equity securities are measured at historical cost. In respect of investments in equity shares and mutual funds, the corresponding unrealised investment gains or losses are reported in the Balance Sheet under "Fair Value Change Account". In case of diminution, other than temporary, in the market value of investments as on the Balance Sheet date, the amount of diminution is recognised as an expense in the Revenue/Profit and Loss Account as the case may be.

Investment in Real Estate:

Investment property is held to earn rental income or for capital appreciation and is not occupied by the Company. Investment property is initially valued at cost including any directly attributable transaction costs. Investment property is revalued at least once in every three years. The change in carrying amount of investment property is credited to "Revaluation reserve" and the corresponding reduction is adjusted in Accumulated Depreciation Account in the Balance Sheet.

Depreciation on Investment Property:

Depreciation on Investment Property is provided on Straight Line Method (SLM) considering the useful life of 60 years in conjunction with the Schedule II of Companies Act, 2013. However, as the Company had purchased the commercial property after 5 years of its construction, the useful life in the books has been considered as 55 years. The carrying amount is shown in the balance sheet net of depreciation. The depreciation for the period is initially netted off against investment income in Revenue Account and depreciation on the Revalued amount is subsequently transferred to Revaluation Reserve.

Forward Rate Agreement:

The Company enters into Derivative contracts, as permitted by IRDAI i.e. Forward Rate Agreements only for the purpose of Hedging. Derivatives are undertaken by Company solely for the purpose of hedging interest rate risks on account of following:

1. Reinvestment of maturity proceeds of existing fixed income investments;
2. Investment of interest income receivable; and

3. Expected policy premium income receivable on insurance contracts which are already underwritten.

Hedge effectiveness is determined based on the principles laid down in the Guidance note on Derivatives issued by The Institute of Chartered Accountants of India. Accordingly, the company uses regression methodology to determine Hedge effectiveness. If the hedge is ineffective, then the movement in the Fair Value is charged to the Profit and Loss Account. If the hedge is effective, the effective and ineffective portion of the movement in the Fair Value of the Underlying and the derivative instrument is determined by the Dollar Offset method. The effective portion are transferred to "Fair Value Change" Account in the Balance Sheet and the and the ineffective portion is transferred to the Profit and Loss Account.

The Derivative contract is valued at the Net Present Value (NPV) of the future cash flows.

Linked Business
