

Return

Returns Below are the top 5 products belonging to each of product categories viz: Non par, Annuity, Unit linked and Par.

Returns in case of non-par, par products and Annuity rate for Annuity products under each of the product for representative model points have been provided under the respective UINs that were live as at the end of each of the preceding 3 FYs and for H2 FY27.

Returns in case of ULIP are directly linked to the chosen fund's performance. Hence, for this product category we have provided the historical returns of the available funds as a proxy for the returns on the customer's policy. Along with the maturity benefit and IRR assumed at 8% return.

LOB – Term

Premiums over last 3 FYs:

Below are the products that account for the top 90%, wherever a premium change is applicable.

Premiums under each of the product for representative model points have been provided under the respective UINs that were live as at the end of each of the preceding 3 FYs and for YTD Aug 2026.

Note:

- All the below sample premiums are for a Male Life and Non-Smoker
- For products that were not available in earlier periods, data has been provided only for the years in which they were available.
